The Honorable J. Edgar Hoover
Director, Federal Bureau of Investigation

Dear Mr. Hoover:

Reference is made to your letter of March 21 at which time you stated that you were assigning Inspector W. G. Sullivan to appear before my Naval Reserve Brigade and deliver an address on May 18, 1955.

Inspector Sullivan carried out his assignment in such a splendid manner that it pleases me to write and inform you of his excellent presentation of the subject "The FBI in Defense."

All of the Reserves present found Inspector Sullivan an interesting speaker with the faculty of holding the attention and interest of his audience. In short, we are deeply indebted to you for making Inspector Sullivan available and grateful beyond words to him for his timely and informative address.

Sincerely yours,

Mr. JOSEPH HOWE, newspaperman, "Salem Evening News," Salem, Massachusetts, was awarded second prize for the best news story appearing in New England newspapers during the year 1954. His prize, known as the "Little Heywood Brown" prize, was awarded to HOWE at a dinner of the Press Club at Boston on April 11, 1955. HARRISON SALISBURY, for five years "New York Times" correspondent in Moscow, was the guest speaker at the gathering which made this award to HOWE. HOWE's articles for which he received the award were entitled "Communist Infiltration of the Fur and Leather Workers Union."

HOWE is a mutual friend of SA [redacted] and RICHARD T. CLANCY of the Boston Office. These Agents met and had occasion to chat with HOWE at a social gathering on April 12, 1955. HOWE explained that he had written 60 articles in this series, "Communist Infiltration of the Fur and Leather Workers Union." These dealt primarily with Communist infiltration of Local 21, IFLWU, Peabody, Mass. He advised that the series of articles has been nominated for the national Pulitzer Award.

HOWE advised by way of his personal background that he is a Captain in the U.S. Army Reserve, and two weeks of each year he goes on active duty. HOWE stated that he is assigned to the Psychological Warfare Division. He stated that last summer while on active duty he was assigned by the Army to attend the Foreign Officers Training Session of the State Department. He stated that at this school he had the very considerable pleasure of hearing Mr. WILLIAM SULLIVAN of the FBI address the group on the necessity of understanding Communism within the United States. HOWE was obviously impressed with Mr. SULLIVAN's mastery of his subject and stated, "He is the best I have ever heard on the subject of Communism." He acknowledged to the Agents his indebtedness to Mr. SULLIVAN's lectures in connection with his articles for which he received the award. He explained that of course it was not possible to utilize any information which was

HOWE advised that he has now received an assignment from his newspaper to do a similar series of articles on Communist infiltration of the United Electrical Radio and Machine Workers of America (IND).

The foregoing is being brought to the Bureau's attention inasmuch as it is a concrete manifestation of the effectiveness of the Bureau's public relation endeavors.

MEMORANDUM FROM W. C. SULLIVAN TO MR. A. H. BELMONT

2. On going outside, I found three other men running toward the apartment of [redacted] [redacted] Arlington, Virginia, from which came the call for help. I joined these men.
3. [redacted] was found to be in a highly frightened state and advised that a man had just entered her back door which was unlocked. He entered her living room where she was sitting alone and had a cloth thrown over his face (later ascertained to be a dish towel he picked up in her kitchen). This man made a lunge for [redacted] with his hands outstretched, as if he was going to grab her by the throat.
4. Her husband, a Department of Justice attorney, had just driven into the yard and [redacted] screamed and fled out of the front door toward her husband.
5. [redacted] entered his house immediately to learn that the subject had fled out of the back door which he had entered. [redacted] ran out into the darkness of a large lawn area, located the fleeing subject and engaged him in a vicious fist fight. The subject broke away in a few minutes and ran. [redacted] caught up with him for the second time and the fist fight was resumed, with the subject hitting [redacted] a powerful blow on the shoulder and neck area, knocking him to the ground. The subject turned and ran in an unknown direction.
6. At the end of this large lawn area, situated between long apartment houses, is South Stafford Street. It was likely that the subject would turn either to the left or to the right rather than continuing straight which would have taken him into a lighted shopping district. Therefore, the three men with me elected to cover the escape route to the right and as I thought three men were enough for that direction, I went off to cover the escape route to the left.
7. On the left side of the apartment building, all was very quiet and peaceful. No person was in sight. There was before me a parking area and, as it was very dark, it was necessary to walk in between the cars in order to see if the person might be hiding there. This I did looking between the cars.

MEMORANDUM FROM W. C. SULLIVAN TO MR. A. H. BELMONT

8. After looking between two or three cars, I heard a slight scuffling noise at the opposite side of the car from where I was. I looked around the back end of the car to see a man rise up in the darkness. I moved in on him quickly and he commenced to run around the front of the nearby car. I told him I wanted to talk to him but he seemed disinclined to do this.
9. We were only a few feet from each other and I caught up with the man in a moment or two, grabbed him and we both crashed to the ground not very many feet from where it all started.
10. On crashing to the ground, the subject did not struggle at all nor did he make any attempt whatsoever to fight. Instead, he stretched out on his stomach, doubled up and commenced to writhe and squirm in what appeared to be intense agony as he moaned: "I am badly hurt, call a doctor." He continued to writhe and moan with apparent pain.
11. The horrible thought occurred to me that I might have collided with an innocent person and not the subject.
12. I asked the moaning man, who continued to say he was badly hurt, what was the matter with him. It was true that for some reason or the other we did hit the ground unusually hard, but not hard enough to cause him all the apparent agony. He replied to my question that he was a cab driver, that he had just delivered a fare on that darkened street, and that a man had assaulted him, robbed him of all his money, knocked him down and stolen his cab. He kept insisting that he was badly hurt, but wanted to get up and look for his cab. He sounded rather convincing, but I told him he was not well enough by his own admission to look for any cab so he had better stay on the ground.
13. At that moment, another man came out of the darkness crouched over and acting oddly as if he was about to join the fray. Not knowing which side he was on, I jumped up and perhaps a little too curtly and roughly inquired as to who he was and what he wanted. Later it seemed to me he thought I had been a bit abrupt as he came to help out in the apprehension. But, at the time, I had no way of knowing

MEMORANDUM FROM W. C. SULLIVAN TO MR. A. H. BELMONT

who he was. Later some person said his name was [] (phonetic), a resident of the community.

14. At that moment in reply to my inquiry, [] instead of answering it, simply said: "You got him." I replied I had somebody but I did not know who he was. [] said it was the housebreaker and went on to say he had been watching from his doorway and saw the man run and turn the corner and then enter the parking area where he crawled beneath a car. [] said he did not want to approach him alone because he thought the man might be armed with a gun or knife, and elected to keep him under observation and wait for other men to arrive.
15. At the end of [] comment, a number of men came up including []. The subject was still on the ground, sitting up now with his back to a car. [] took one look at him and said: "That is the SOB I have been fighting with." [] was not a little furious and, with some justification, aimed a blow at the subject and was all for continuing the fight. We persuaded him not to do so and, with considerable reluctance, he agreed not to.
16. The Arlington County Police next arrived and organized chaos and confusion compounded prevailed with men and women pouring out of their apartments giving conflicting stories and with the police vainly trying to take down the comments, names, addresses, etc. At that point, I left forthwith and returned to my apartment. Subsequently, the police asked for my name and employment and it was given to them. Officer [] told me I would be called to testify in court on Tuesday, and he later recontacted me to say it would not be necessary to testify on Tuesday, but possibly at a later date.
17. The subject was identified by both [] arrested and taken, it was said, to the Arlington County Jail.
18. It is to be noted that the subject lied on two specific occasions to me directly. He lied when he said he was robbed of all his money, for on searching him, I found he had a number of bills on him. He lied when he told me some person had driven off in his cab, for his cab was found parked only about twenty yards from where I encountered

MEMORANDUM FROM W. C. SULLIVAN TO MR. A. H. BELMONT

b6
b7C

him. Apparently he was on his way to it when unknowingly I got between him and his cab.

COMMENTS:

I think [] of the Department of Justice (unknown to me before this brawl) performed splendidly in this matter. It is to be noted, he rushed out into the darkness and was the first to locate and fight with the subject. Although the subject broke away and ran, [] caught up with him a second time and another bruising fist fight followed, before [] was knocked to the ground and the subject escaped for a second time. Despite the fact that the subject escaped twice from [] (who is said to be a former boxer), it appeared evident to me on colliding with the subject that [] had given him a terrific pounding, and I have no doubt that this was the reason why the subject was unable to struggle or fight when we hit the ground.

As indicated, the subject is white, looked to be six-foot tall and weighs probably around 170 to 180 pounds. He may be in his late twenties or early thirties. He acted oddly and may have taken drugs or had been drinking, but I must say I did not notice the odor of intoxicants on him. [] told me that when he was fighting with the subject, he gave the appearance of being berserk, uncommonly vicious, possibly mentally deranged temporarily.

IS THERE ANYTHING TO LEARN FROM THIS?

Is there anything of training value in this encounter which might be passed on to other Agents during instruction? I think there are a few items of possible training value. As I analyze it now, I made four mistakes in about ten minutes, two of which could have been serious. First, I made no attempt to identify the subject, other than asking him to stop and talk, before colliding with him. He could have been an innocent neighbor confused for a moment. On the other hand, it is difficult to identify a person who is running away from you. It poses a problem. Second, on closing in quickly on the subject in the darkness of the parking area, it never once occurred to me that he could have had a gun or knife, which I would not have known about until he had used them. I assumed physical conflict only. Third, on hitting the ground, I did not think of searching the subject until the neighbor [] came up and mentioned the possibility of a gun or knife as his reason for not approaching the subject. I then searched the

MEMORANDUM FROM W. C. SULLIVAN TO MR. A. H. BELMONT

subject, but found nothing in the way of a weapon. Four, it was also a mistake for me to be halfway convinced that the subject was seriously hurt and needed a doctor immediately.

These mistakes made by me may be of some value in cautioning other Agents during training courses in this field.

You certainly did some quick thinking the other night when you tackled the individual who had broken into the home of one of your neighbors and held him for the Arlington Police. I understand, too, that he appeared to be of a vicious character.

Your actions on this occasion were certainly a demonstration of courage and resourcefulness which have come to be expected of those of us in the FBI and you did not fail. I am happy to commend you.

The attached letter of the Boston Office reviewing the experiences of Joseph Howe, a reporter for the Salem Evening News, Salem, Massachusetts, is exceedingly interesting. Howe was awarded second prize for the best news story appearing in New England papers in 1954 at a dinner of the Press Club in Boston. Howe's articles had to do with Communist infiltration of the Fur and Leather Workers Union and included 60 different articles; that the series had been nominated for the national Pulitzer award.

Howe, by way of background, is a Captain in the Army Reserve, is assigned two weeks each year to active duty in the Psychological Warfare Division and last summer while on active duty he was assigned to the Army to attend the foreign officer's training session at the State Department. While there he attended one of Supervisor William C. Sullivan's lectures. Howe has reported to Agents of the Boston Office that he was impressed with Sullivan's mastery of the subject; that Sullivan "is the best that I have ever heard on the subject of Communism." He stated that he was indebted to Sullivan's lecture in connection with his articles for which he received the award; that, of course, it was not possible to utilize information covered by Sullivan in his lecture, but nevertheless, Sullivan's lecture conditioned him for a proper appreciation of the Communist threat within the United States and caused him to be mentally alert to its manifestations in the local area. He has now received an assignment from his paper to do a similar series on Communist infiltration of the United Electrical, Radio and Machine Workers of America.

I think that this is particularly significant because it shows the impact that a proper presentation can make. Certainly, Sullivan did accomplish a real service for the country in the lectures which he delivered at the State Department if they influenced only Howe in the manner in which they did. Sullivan's lectures provide a springboard to get across the Bureau's ideas, views and policies which we need to even more bring to the attention of articulate people.

This is to advise you that as of this week, my address and telephone number have changed from 4246 South 35th Street, Arlington, Virginia (OV 3-3190) to 508 East Capitol Street, Washington, D. C. (LI 7-6829).

This change has been occasioned by the fact that my wife and family have moved to our home town of Bolton, Massachusetts (telephone Bolton 164) to live for an indefinite length of time with my wife's mother, Mrs. Amy Hawks. My family has made this move because of illness. My wife has been ill with a hyperthyroid affliction and under doctor's care. It is believed that living in the relaxed atmosphere and more spacious surroundings of a small village, rather than in a crowded apartment, will be conducive to her recovery. If this does not do it, an operation will be required and she will be relatively near one of the best, if not the best, medical institutions in the country for this particular type of operation, namely, the Leahy Clinic, Boston, Massachusetts. My wife's mother, Mrs. Amy Hawks, 75 years of age, is presently making an uncertain recovery from a recent attack of bronchial pneumonia and continues to be troubled from a serious heart ailment. She no longer can safely live alone and requires the presence of my wife who is the only living member of her family. She will remain with her mother as long as her mother lives. My five and one half year old daughter [redacted] has suffered constantly from recurrent attacks of bronchitis since January, 1955, and Dr. Bruce R. Mallett, King and 30th Streets, Arlington, her physician, expressed the opinion that a change in climate is desirable and may help her. In the light of these three basic considerations, it was decided to terminate our apartment lease and move the family to Bolton.

This change will in no way affect my work at the Bureau for, as previously indicated, I have taken a room at 508 East Capitol Street, Washington, D. C. (the home of [redacted] long known to me) and will continue on as before. Contingent upon the clearing up of the above-described family health situation, my family will return to live in Washington, D. C. This may be in a year or it may not be for four or five years.

RECOMMENDATION: None. This is for your information, for the information of the Administrative Division and for recording.

BACKGROUND:

Your memorandum dated June 3, 1955, to Mr. Tolson advised of information furnished by the Boston Office under date of April 25, 1955, concerning Joseph Howe, a reporter with the "Salem (Massachusetts) Evening News." On April 11, 1955, in the Boston Press Club, Howe was awarded second prize for the best news story appearing in New England newspapers during 1954. This award was for Howe's articles entitled "Communist Infiltration of the Fur and Leather Workers Union." Howe thereafter advised Agents of the Boston Office that he had attended a lecture given by Supervisor W. C. Sullivan for the foreign service officers program of the State Department. Howe stated Sullivan "is the best I have ever heard on the subject of Communism" and that Sullivan's remarks caused him to be mentally alert in connection with the Communist menace.

You pointed out the value of the lectures given by Sullivan and suggested we reconsider our decision of discontinuing his appearances before the Foreign Officers Institute since the benefits would outweigh our concern over Senator Cain's getting into one of the lectures. You recommended Sullivan's lectures be reinstated at the next session of the Foreign Officers Institute. Mr. Tolson noted, "I don't agree. We just cannot take the chance." The Director indicated: "1. I agree Sullivan's efforts are masterful. 2. I think rather than any hard and fast rule we will have to evaluate each request and the security aspects. 3. Did we write and congratulate Howe?"

Memorandum to Mr. Nichols

JOSEPH HOWE - SEARCH OF BUREAU FILES:

b6
b7c

Bureau files contain only two references identifiable with Howe: the Boston memorandum of April 25, 1955, mentioned above, and the Bureau's memorandum in reply dated May 9, 1955, instructing the Boston Office to review the articles written by Howe for investigative leads in connection with the Bureau's investigation of the Communist Infiltration of the International Fur and Leather Workers Union. Copies of Howe's articles have not been furnished to the Bureau. (100-92637-790)

Bureau files make reference to a [redacted] born [redacted] in Massachusetts, who in March, 1943, was reported as delinquent by his local draft board. U. S. Attorney declined prosecution. This same individual received a sentence of from three to six years in state court on July 7, 1946 for auto theft. (25-16057 and 26-103038)

SALEM NEWS:

The 1955 Editor and Publisher Year Book indicates the Salem News is an evening paper with a circulation of approximately 23,000. It is published by the Salem News Publishing Company.

Bureau files contain no pertinent references concerning the relations between the Bureau and the Salem News Publishing Company or the Salem News.

INFORMATION FURNISHED BY BOSTON OFFICE:

SAC Powers of Boston telephonically advised at 2:30 p.m. today that the files of the Boston Office contain no derogatory information concerning Howe; that Howe has been cooperative and is considered reliable and trustworthy. Howe has furnished the Boston Office with photographs of witnesses appearing before a State Commission investigating Communism in Massachusetts.

The Salem Evening News is a conservative Republican paper. Colonel Roland Estey, its president, is prominent in the Salem area and Boston files contain no derogatory information concerning Estey other than a remark volunteered by Inspector [redacted] of the Salem Police Department to the effect that Estey was generally considered erratic and unreliable. The paper and Warren Rockwell, its editor, have been cooperative.

Memorandum to Mr. Nichols

June 9, 1955

Concerning a letter to Howe, SAC Powers suggests no letter be sent to Howe concerning his receipt of the award by the Boston Press Club last April because this has been a controversial issue in the Salem area. This is a Democratic area, the newspaper is Republican and a letter to Howe would inject the Bureau in a local controversy and Estey might well publish the letter. SAC Powers recommends a short letter of appreciation for his comments concerning Sullivan's speech and that no mention of the subject matter be included in the letter.

RECOMMENDATION:

That the attached letter be sent to Mr. Howe thanking him for his remarks concerning Inspector Sullivan's speech. It is believed that such a letter would help cement relations between the Bureau and Howe who has been cooperative.

ADDENDUM, GMP:mcc, 6-10-55:

In view of the Director's notation "I didn't mean this. I was referring to prize he received re his articles." on the proposed letter to Howe, a new letter has been prepared and is attached congratulating Howe upon receipt of the award and thanking him for his comments concerning Sullivan's speech.

THREE

The Training and Inspection Division is under instructions to report firearms delinquencies for fiscal year 1955 which have not been made up by the close of business July 28, 1955, and to submit to me appropriate recommendations for administrative action.

Memo for Mr. Tolson from L. B. Nichols

The Howe statements backed by the 60 articles reflect positive action and benefits and far outweigh our concern over Senator Cain getting in to one of the lectures. It seems to me that we ought to reconsider our decision of discontinuing Sullivan's appearance before the Foreign Officer's Institute because obviously they will be more cautious in the future and even Cain did not intend to utilize the information adversely against the Bureau as was originally reported. If a half a dozen Howes could be influenced, great good could inure not only to the Bureau, but to the country.

I, accordingly, recommend that at the next session of the Foreign Officer's Institute Sullivan's lectures be reinstituted.

I don't agree.

EOD: 8/4/41

GRADE: GS-15 \$12,420

ASSISTANT DIRECTOR BELMONT:

Mr. Sullivan is Chief of the Central Research Section. In this capacity, he is in direct charge of the production of monographs, studies and papers covering a wide variety of subjects, principally in the security field. Many of these monographs are disseminated outside the Bureau, with resultant "selling" of the Bureau as an intelligence agency. Other monographs are most helpful as investigative aids to our Agents. In addition, Sullivan is a definite authority in the field of Communism and is an excellent public speaker. He is imaginative, a prolific reader, has constantly increased the production of his Section, and has handled special assignments very successfully.

Rating: Satisfactory.

ASSISTANT DIRECTOR TAMM:

Mr. Sullivan is sincere, conscientious and dependable. He is thoroughly interested in the activities of his Section and is a completely loyal Bureau official. He has a helpful attitude. He is alert to ways in which his Section can assist the Field and other Divisions at the Seat of Government. He has no problems and is available.

D.C.
N.Y. While attending the George Washington University Law School luncheon on Tuesday, 8/23/55, I ran into one of my old classmates, Colonel Charles W. West, who has been on the faculty at West Point for the past 11 years and who is a permanent fixture at West Point. In the course of the conversation, he told me that Mr. W. C. Sullivan, in his appearance before the Cadet Corps at West Point last winter, had rendered a noteworthy contribution; that in addition to making a fine presentation, Sullivan's presentation of the subject of Communism was done in such a manner as to profoundly influence the cadets and that he still encounters class discussions wherein the cadets cite Sullivan's presentation to support a point they are making. *W.C. Sullivan* *JB*

West stated that he hoped that Sullivan could appear annually before the cadets although he, West, is not the official who handles such matters.

MEMORANDUM FOR MR. TOLSON
MR. NICHOLS

On September 14, 1955, I saw Inspector William C. Sullivan, who called to express his appreciation for his recent promotion to Grade GS-16.

I told Mr. Sullivan I thought he had done an outstanding job in his duties as Chief of the Central Research Section of the Domestic Intelligence Division, and that I was happy the Bureau could promote him in grade and salary.

I took occasion to advise Mr. Sullivan of the contemplated efforts of the Bureau to procure a book to be written upon the history of the FBI, in view of the fact Mr. Sullivan has been working upon a project of gathering together background information which could be used in such a book. I told Mr. Sullivan that I would expect him to cooperate fully and be prepared to confer with such persons as might be necessary in assembling this material.

I also stressed to Mr. Sullivan the need for absolute objectivity in the preparation of the monograph upon which he is now working, dealing with the activities of the Fund for the Republic. I told him I wanted this monograph to be absolutely fool-proof and that it should be prepared with complete objectivity.

I also discussed with Mr. Sullivan the recent papers and charts brought to the Bureau by General Trudeau and which have been discussed with General Trudeau by Assistant Director Belmont and Inspector Sullivan. I stated that when the several priority projects, upon which he was now working, had been taken care of, I would, of course, want this material left by General Trudeau with the Bureau carefully analyzed and thorough research made into the same in order that the Bureau might determine what further action should be taken.

Inspector Sullivan contacted the Personnel Section 9-28-55 to advise that he had a recent flare-up of his respiratory condition and that he had been on sick leave September 26 and 27. During this time he was able to reduce his fever by medication and returned to active duty Wednesday, 9-28-55. He stated that he was still weak and was getting cold sweats but was having no difficulty breathing. He said his temperature was normal and he requested a check up at Bethesda.

Arrangements were perfected for Mr. Sullivan to be examined at Bethesda on Thursday, 9-29-55, and the doctor was fully briefed on his previous medical history.

From history standpoint, Mr. Sullivan has had periodical respiratory flare-ups since 1-26-53 when he became initially ill with influenza. Since then he has been periodically hospitalized for the condition when flare-ups have been severe and for a time he was given temporary assignment at Tucson, Arizona, to determine if climatic change would assist his condition. Thus far, although no definite medical diagnosis has ever been made as to the exact cause of his condition, the doctors at Bethesda consider his condition to be chronic bronchitis. They advised many different germs or viruses will cause reactivation of this chronic condition which can then only be checked by appropriate medication but which will not render him invulnerable to future attacks. They felt the frequency of these flare-ups will diminish when he builds up general resistance to these infections.

RECOMMENDATIONS:

None. His condition will be followed and you will be advised of anything unusual.

As you know, W. C. Sullivan has been feeling badly during the past week and has been on sick leave for portions of several days. Today, October 3, 1955, he went to see his own doctor who has diagnosed his illness as being bronchiectasis. He wants Sullivan to enter a hospital in the near future to have bronchoscope and bronchogram examinations and indicates the possibility of surgery, possibly removing a portion of one lung.

I have told Sullivan to confer with Mr. H. L. Edwards regarding the possibility of utilizing the facilities of the Naval Hospital in connection with his treatment. Sullivan's doctor is a consultant to the Naval Hospital.

ACTION:

You will be kept advised of developments in this matter.

Mr. Sullivan has been granted 6 days' annual leave for the purpose of visiting his home in Bolton, Massachusetts. At the expiration of this leave, he is entering Doctors' Hospital for a bronchoscopic examination of the lungs. He has indicated a desire to have this examination done privately. Therefore, he is not preparing any memorandum in this regard inasmuch as he has stated he does not want anyone bothered with his personal problem. He will await a definite diagnosis from his doctor (Dr. Ashburn) and then he will decide what the next move is to be.

ACTION:

This matter will be followed with Sullivan and you will be kept advised.

You were advised 10-3-55 that Mr. Sullivan was sent to the U. S. Naval Hospital, Bethesda, for a check up due to a recurrence of his respiratory condition 9-29-55 and that the doctor had been briefed fully on his history. You were also advised that our medical examiner referred Mr. Sullivan to the Chest Clinic at Bethesda where he was examined and that fluoroscopy examination revealed no evidence of bronchial obstruction on forced expiration. The doctor found an area of localized wheezing in the base of his right lung, particularly on forced expiration. The doctor's "Impression" is that Mr. Sullivan has acute Bronchitis of an intermittent nature. He suggested that Mr. Sullivan return if he had any repetition of chills and fevers in order that he could be given a Malaria smear test at the time of the fever. due to Sullivan's exposure to tropical diseases in North Africa, Spain, Portugal, Latin America, etc. Mr. Sullivan was given medication to check the recent flare-up. You will recall he has had respiratory difficulty since 1-26-53 when he first became ill with influenza. Since that time he has periodically been hospitalized when these attacks are severe and was given temporary assignment at Tucson, Arizona, to ascertain if climatic change would assist him. No definite medical diagnosis of the cause of his difficulty has yet been made although he has been studied by many doctors and, in the past, received an extensive work-up by a chest specialist at the Naval Hospital at Bethesda. The latter's opinion was that Sullivan has chronic bronchitis which can only be checked by appropriate medication which will not render him invulnerable to future attacks but that the frequency of such attacks will diminish when he develops resistance to these infections.

On 10-4-55 Mr. Sullivan advised the Personnel Section that he was still bothered with his respiratory condition. An offer to assist him through the Bethesda facility was made but he advised that he had

decided to place himself under the care of Dr. Frank Ashburn. He stated that he had seen Dr. Ashburn since 9-29-55 and that the latter believes he may have bronchiectasis which is defined as a chronic dilation of the bronchi. Dr. Ashburn has decided to give Mr. Sullivan additional tests with the bronchoscope which is an instrument containing a light for inspecting the interior of the bronchi. Dr. Ashburn advised Mr. Sullivan this will confirm or rule out his present suspicion. He may follow this up by further study with a bronchogram, which examination consists of injecting the bronchi with an opaque matter and then examining for infection. Dependent upon results of those two studies, if bronchiectasis is found to be the cause of the trouble, Mr. Sullivan indicated that the doctor would then remove the infected area surgically. To accomplish these two special tests, Dr. Ashburn has set a tentative date for Mr. Sullivan's admission 10-18-55 to an unnamed hospital in the area. Dr. Ashburn told Mr. Sullivan that such hospitalization to accomplish these tests would require about one day only. Mr. Sullivan does not desire that any effort be made to obtain his admission to the Naval facility at Bethesda, particularly since this study will be made by his personal physician.

RECOMMENDATIONS:

None. This is submitted for information and record purposes and his condition will be followed.

Dear Mr. Hoover:

It is indeed a pleasure to inform you that the lecture given by Mr. William C. Sullivan, of your office, on 16 December 1955, to personnel who are on Military, Civilian and Industrial Security Boards with the Department of Defense, was extremely interesting and of great value. This informative lecture was presented in a superior manner, each facet clearly defined and in its proper perspective. The high degree of interest in Mr. Sullivan's lecture was exemplified by the number of questions at the conclusion of the speech. As a result of this lecture, it is felt that board members have a better working knowledge of the current organization, strategy, tactics and activities of the Communist Party, USA.

We are indebted to you for the services of Mr. Sullivan. Please convey our appreciation and gratitude to him.

Because of the immense assistance that the Bureau has been to me since I first contracted a respiratory disorder in January, 1953, following pneumonia, I wish to advise of some good news recently received.

It will be recalled that the original diagnosis in 1953 was bronchiectasis on both sides of the lungs (bilateral). Almost always this is an incurable condition which can be corrected only by major surgery, removing the infected and damaged portion of the lung.

As it can be progressive, I had a follow-up hospital examination during the past few weeks consisting of a bronchoscopic probing and a bronchogram. I had been advised that if the bronchiectasis existed in the same proportion as in 1953 or had spread in the lungs, an operation would be immediately necessary.

The examinations were completed yesterday afternoon and I was informed that the bilateral bronchiectasis has apparently corrected itself; a change to the good which rarely happens with that type of lung disease. Hence, the lungs are organically clear again and within normal limits. There is still some diffused infection which treatment should clear up with time.

RECOMMENDATION:

None. For your information and the Director's, who has been of such great assistance to me in this matter since 1953.

COMMAND AND GENERAL STAFF COLLEGE

5 November 1955

Dear Mr. Hoover:

I want again to express my appreciation to you for permitting Mr. William C. Sullivan to visit this College and present his excellent talk on "Communism in the United States" to our students and faculty.

His talk this year was no exception to the unusually interesting and informative presentation he has made in the past. Through his addresses at the College over the past several years, he has provided a major segment of the leadership of the Army, a body of several thousand officers, a sound basis for understanding and evaluating the efforts of the Communist party within the United States and, thereby, I feel has made a very significant contribution to our efforts to counteract the menace from this force.

We were disturbed to learn that he will probably have to undergo an operation in the near future. Would it be too much to ask you to have your secretary let me know when the operation is over as we would like very much to send him a light, get-well card?

Again, thank you for permitting him to visit the College this year.

Dear Mr. Hoover:

William E. Sullivan

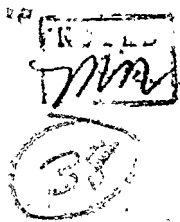

Please accept my sincere thanks for allowing Mr. Sullivan's return visit to West Point to speak on "Communism Within the United States". The staff, faculty, and cadets who attended this lecture were most enthusiastic in their response to Mr. Sullivan's highly informative presentation. In view of my past associations with members of your organization, this outstanding lecture was both professionally and personally pleasing to me.

In addition to the valuable contribution which Mr. Sullivan made toward a better understanding of the communist threat on the part of the officers and cadets stationed here, his demonstrated knowledge, obvious competence, and concise presentation left us with a deeper appreciation and even greater confidence in the Federal Bureau of Investigation. I hope that we may have the opportunity of hearing him again in the future.

With best personal regards,

Sincerely,

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

PART I - General Comments

WILLIAM C. SULLIVAN

Mr. Sullivan is Chief of the Central Research Section. His responsibilities entail complicated and involved research into all phases of the Bureau's security work and involves the preparation of monographs and summary memoranda on some most delicate subjects. Under Sullivan's guidance the Section has turned out a tremendous volume of well-coordinated, helpful studies most of which have gone to the field and have been of particular assistance to the Agents handling security matters. Sullivan is a hard working, alert Section Chief who gets the most out of the personnel in his Section. They have confidence not only in his leadership but in his own unique ability to turn out a tremendous volume of work well presented and of consistent high quality. Sullivan represents the Bureau in public appearances speaking before many groups of non-Bureau personnel principally in the field of communism. His ability to present these matters has resulted in nine letters of commendation being received from outside the Bureau during this rating period.

On June 6, 1955, Sullivan was commended by the Director for demonstrating courage and resourcefulness in tackling an individual who had broken into the home of a neighbor, making his apprehension possible by the Arlington Police Department. On August 27, 1955, in connection with the comments of Colonel Charles West regarding Sullivan's appearance before a group at West Point the Director commented "Sullivan always does a good job."

During the inspection of the Domestic Intelligence Division on August 18, 1955, Assistant Director Tamm described Sullivan as sincere, conscientious, and dependable, thoroughly interested in the activities of the Section and a completely loyal Bureau official. He was described as having a helpful attitude and always alert in ways in which his Section can assist the field and other divisions at the Seat of Government. Sullivan was promoted to the position of Inspector on September 11, 1955.

Sullivan had a brief flare-up of a bronchial condition in October 1955. He was hospitalized for examination. In March 1956 he was certified by the Naval Medical Center as qualified for strenuous exertion.

[redacted] and [redacted] attended the Security
Informant Training Conference held in this office on April 23
and 24, 1956. In addition, in accordance with the invitation
of Assistant Director A. H. BELMONT, Supervisors [redacted]
[redacted] and I attended various sessions of
this Conference during the two-day period.

In the opinion of all who attended, the Conference was
a very definite aid in the important field of developing security
informants. The agents commented specifically that they enjoyed
the open forum aspect since it made for voluntary participation
and free expression of views and experiences of all in attendance.
The agents said they appreciated the opportunity of obtaining the
views first-hand of Bureau officials in a position to know the
over-all picture. They felt, too, that from the comments of the
Bureau representatives they obtained a clearer view of the
progress being made throughout the country and some of the
techniques utilized by other offices in their development of
informants. The agents said they felt sure that these discussions
opened for them new horizons for possible usage in their own en-
deavors.

EXP. PROC.

The agents expressed to me their admiration of the very
fine manner in which Assistant Director BELMONT and Supervisors
FRED J. BAUMGARDNER, WILLIAM C. SULLIVAN and JOSEPH D. DONOHUE
handled the Conference as evidenced by their wealth of material,
the manner in which it was presented and the guidance they af-
forded the discussions. The agents mentioned specifically Mr.
BELMONT's lucid and full explanations of the Bureau's policies
and procedures necessary in the handling and controlling of in-
formants. All in all, it is felt that the Conference produced
many worthwhile ideas and avenues of approach to be used in the
possible exploration of new areas of endeavor in this field.

Dear Mr. Hoover:

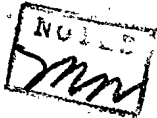

On behalf of the students and Staff and Faculty of The Army Intelligence School, please accept my sincere appreciation for making available the outstanding presentation by Inspector William C. Sullivan to the Officer Advanced Class at Fort Holabird on April 2, 1956.

Those who were privileged to attend the session derived considerable benefit from Inspector Sullivan's illuminating and authoritative discussion of Communist activities in the United States. His ability to emphasize clearly those aspects of the subject which are of primary significance to our personnel resulted in a stimulating and valuable lecture. The high degree of interest displayed by the students during the discussion which followed the formal instruction was ample evidence of the speaker's professional competence and the extremely favorable reaction of the audience.

Please convey our appreciation to Inspector Sullivan for an outstanding contribution to the program of instruction at The Army Intelligence School.

Security Informant School

The two-day conference held in the New Orleans Office per-
 taining to the development and handling of Security Informants was
 most successfully conducted. Mr. FRED J. BAUMGARDNER, JOE D. DONO-
 HUE and WILLIAM C. SULLIVAN were well prepared and all performed
 outstandingly in bringing to the special agents in attendance at the
 conference instruction with respect to the informant program.

Both ASAC DINSMORE and I attended the conference and were
 impressed with the development and exchange of new ideas and infor-
 mation concerning this vital Bureau responsibility, and we both re-
 commend that the Bureau consider conducting such schools in the field
 at periodic intervals in the future.

The special agents in attendance uniformly expressed the
 opinion that a great deal of excellent instruction was received at
 the conference, and I feel that each is now better qualified to
 carry out the duties and responsibilities of the Bureau in the do-
 mestic intelligence field.

I thought you would be interested in knowing that the recent informant school held in New York was deemed by those in attendance as a huge success. I heard much favorable comment about Messrs. This most favorable impression was created not only because the Bureau representatives were so well versed in their subject, but were able to draw from the Agents their undivided attention, enthusiasm, and participation.

It is the Agents' feeling that this type of field level conference is very productive, ^{Numbered} not only in advancing better development and furtherance of important phases of the Bureau's work, but also in establishing an excellent understanding between the Bureau and State of Government.

Dear Mr. Hoover:

I would like to take this opportunity to thank you for making Mr. William C. Sullivan, Inspector-in-Charge, Special Research Section, available to address my Staff on 27 June 1956.

Mr. Sullivan's informative talk on the structure and operations of Communists in the United States was well received. In fact, his talk was so provocative that my Deputy Chief of Staff was forced, because of lack of time, to call a halt to the spirited question-and-answer session that followed.

Should the need arise again, I hope I can call once more on Mr. Sullivan's services.

Sincerely,

I am attaching hereto a letter addressed to me from Bill Sullivan dated September 26th, together with my reply today, and as I have indicated, I think this letter most succinctly points up the need for our keeping in mind constantly the danger of falling into a smugness and apathy of attitude which can only be counterbalanced by constantly sparking the need for enthusiasm, work and ideas. I thought that you might benefit, as I have, from reading Bill Sullivan's letter.

Dear Mr. Hoover:

I had the privilege of hearing Mr. William C. Sullivan for the first time when he presented his talk on "Communism in the United States" to our student body and Faculty last week. Previously, General Train and other members of the Faculty had informed me that in past years he has been one of the outstanding speakers to appear at the College, and his presentation on Friday certainly proved that he deserves such a reputation.

I wish to express to you my sincere appreciation for permitting him to visit the College and present his outstanding talk. He made a substantial contribution to an understanding, on the part of our young leaders, of subversion and its potential danger to our national security.

Thank you again for permitting Mr. Sullivan to visit us this year. I sincerely hope that it will be possible for you to accede to our requests in the future and permit him to lecture to subsequent classes at the Command and General Staff College.

As we approach the publication date of the book, I desire to call to your attention the list of Bureau personnel whom I feel should be commended by letter for the assistance which they gave in the preparation of the material and working on various phases of the book.

Special Agent [redacted] Crime Records Section - [redacted] was pretty much the wheel horse, was assigned to coordinating the various projects, and he worked on the book from the outset compiling research data, worked on its documentation and has handled himself exceedingly well. I consider that his efforts were outstanding.

Special Agent Gordon E. Malmfeldt, Crime Records Section - Malmfeldt has worked continuously on the book since mid-October of 1955. He did a large part of the original research as well as documentation. He has been exceedingly conscientious and was persistent in running down points seeking accuracy.

Special Agent [redacted] is now assigned to the Special Chinese Language School. This assignment took place after the major portion of the book had been finished. His efforts were excellent in gathering and compiling research material and in checking it out.

Special Agent [redacted], Training and Inspection Division - [redacted] handled the research material covering the portions on World War I and SIS material. His work was extremely thorough, detailed and accurate. His enthusiasm was excellent.

Special Agent [redacted] Training and Inspection Division - Kirsch, a firearms instructor, was made available to assist in the original research when we were hard pressed to get the project started in the fall of 1955. He worked long hours and turned in an excellent performance.

This book turned out to be a much bigger project than I believe any of us ever realized when we started out. The help that we got from the various divisions and the interest taken by every Assistant Director was refreshing indeed. I would be derelict if I did not single out former Assistant Director E. D. Mason who doubled up and to my own certain knowledge took on certain additional burdens in the Training and Inspection Division in order to let Dalbey and Kirsch help us on the book. I think that Mason should be commended specifically for this. Mr. Mohr of the Administrative Division likewise was exceedingly helpful, particularly dealing with compiling figures, many of which we later did not use but which we needed to have and I think that Mr. Mohr should be commended for himself and his associates.

Mr. Parsons in the Laboratory was particularly helpful in the chapters dealing with the Laboratory and also in other related matters, and I think that Mr. Parsons' personal enthusiasm and industry would warrant a letter of commendation mentioning who assisted in the research work for the chapter used on the Laboratory.

We recently held a conference attended by members of my staff and the personnel in our Operations Offices directly responsible for the AEC Personnel Security Program. Arrangements were made through Mr. [redacted] your Liaison Representative, for Mr. William C. Sullivan of your Bureau to address this conference, on November 29, 1956, on the subject of the Communist Party, U.S.A.

I had the pleasure of listening to Mr. Sullivan's discussion and was deeply impressed with the scope of his knowledge of Communist Party matters and his manner of presentation. The same impression was received by the remainder of the group that heard his talk. It is our common view that Mr. Sullivan's remarks constituted the most interesting and most informative summarization of the Communist movement that we have been privileged to hear.

Your assistance in making Mr. Sullivan available is greatly appreciated. The Bureau's continued cooperation in furnishing pertinent information regarding Communism and the Communist threat has been of material assistance to us in our effort to keep AEC security personnel properly oriented on this important subject.

For the past week I have had a chest cold necessitating one day of sick leave. Tomorrow I am scheduled to go to Firearms and with this cold and changeable weather, I consider it to be inadvisable, especially so in view of the fact that I must leave tomorrow night for Georgia where I have two lectures to give. In view of this fact, it seems to be a matter of good judgment to make up this Firearms period next month. *IS*

Dear Mr. Director:

I would like to express my sincerest appreciation to you for the fine lecture on "Communism" which Inspector Sullivan, from your office, recently presented. This lecture has helped each and every one of us to understand more fully Communism and its methods of intrusion in this country.

His coverage of the theme was enlightening as to the overall picture of subversion in this country, as well as to the specific effects that the Communist Party USA could have on our defense effort. This was indeed appropriate for our security training program.

It was a pleasure to welcome Inspector Sullivan, and I would like to extend my thanks once again to the Bureau for making these lectures available.

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
~~+~~ Outstanding (exceeding excellent and deserving of special commendation).
~~E~~ Excellent.
~~✓~~ Satisfactory (good or very good).
~~-~~ Unsatisfactory.
~~O~~ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

Dear Mr. Hoover:

I would be amiss if I did not convey to you the very complimentary remarks which were made to me concerning Mr. William C. Sullivan who was the FBI representative and one of the many guest speakers at the National Strategy Seminar, June 11-14, 1957, United States Army War College, Carlisle Barracks, Pennsylvania. As you know, the Seminar was composed of approximately two hundred of the Army's outstanding officers who had been chosen to attend the Army War College for an intense nine months' course together with guests and lecturers who are amongst the top-flight men in Government, industry, and various fields of endeavor.

Colonel Allen Leonard, who was the Military Attache attached to the American Embassy in Bonn, Germany, during my tenure of duty at that post, was one of the officers completing his course at the Army War College. He telephonically contacted me Sunday while en route to Fort Benning, Georgia, for conferences prior to reporting to his new post of assignment, Fort Lewis, Washington. The call made by Colonel Leonard was mainly for the purpose of telling me the impression made by Mr. Sullivan while at the Seminar. Colonel Leonard stated that "barring none", Mr. Sullivan was the outstanding speaker. He delivered a one hour talk without once referring to notes and was in full command of himself and his subject. He stated that the "question and answer" part of the Seminar was well handled by Mr. Sullivan who again never referred to notes but was never at a loss with the answers. Colonel Leonard advised that all in attendance were extremely impressed with Mr. Sullivan as a person and a speaker and that he had greatly enhanced the FBI's reputation.

Last night I returned from Massachusetts on the Pennsylvania Railroad train called "The Patriot." On getting off the train in Union Station about 12:15 a.m., the heavy metal platform which covers the steps and which is lifted up and hooked to the side of the train when people are leaving the train, came loose from its hook and slammed down, hitting me across the right side of the head and eye. The blow was sufficiently heavy and forceful to knock me off the steps to the cement platform stunning me for a moment. A trainman, Mr. Shaffer, was there and he said the metal platform had not been hooked back properly, hence, it became loose and fell. It was his opinion that some passenger must have hooked it back. *PA, D.C.*

As the blow was a stunning one and my face commenced to swell around the eye region, I deemed it advisable to get the matter on record. I reported the accident to the station master's office in Union Station. The men there attempted to pass it off and showed a reluctance to accept any responsibility in the matter. They stated that there was no doctor on duty at that time and that if I wanted to make it a matter of record with the Pennsylvania Railroad, it would be necessary to go to a hospital. I told them I would do this. They sent me to the Casualty Hospital where a doctor looked the injury over and commented on the force of the blow and the swelling and gave me some medicine to take in order to reduce the swelling. It was also made a matter of record in the hospital. *Wash. D.C.*

Apart from the stunning blow and a headache which extended through the night and into today, there does not seem to be any additional damage done known to me at this time. The eye area remains tender and sore with some pain still on the right side of my head. Unless it becomes worse, I will not take any further action in the matter. This memorandum is being written merely to advise you as to what has happened and to make it a matter of record. *RECORDED-150 INDEXED-150*

Enclosed will be found a letter addressed to me from Lieutenant General Garrison H. Davidson, Superintendent of the U. S. Military Academy, West Point, New York. General Davidson has very thoughtfully extended an invitation to my wife and myself to be guests of West Point for the Army-Nebraska game to be played in Michie Stadium on September 28, 1957.

Quite obviously, this is a courtesy and kindness directed toward the FBI and not toward myself. As an individual, I certainly would not receive any such invitation. It is received only in my capacity as a representative of the FBI relative to lecturing at West Point. Therefore, it seems to me that the Bureau would want to indicate its preference in this matter.

I have no personal interest in the invitation one way or the other. If the Bureau wishes me to accept this courtesy and invitation as a representative of the Bureau, I will be glad to do so. On the other hand, if the Bureau wishes me to refuse this courtesy and invitation, I will be equally glad to do so.

On being advised of the Bureau's preference in the matter, I will then write General Davidson a personal letter and inform him one way or the other.

RECOMMENDATION:

That I be advised of the Bureau's preference in this matter.

Enclosure

The following is a brief and concise summary of Mr. Sullivan's personnel file for the Director's use.

SA Sullivan entered on duty 8-4-41 and was assigned to a number of Field Offices before being assigned to the Seat of Government on 6-25-44. He is presently assigned as Chief of the Central Research Section in the Domestic Intelligence Division, and he had previously served as Supervisor and as Supervisor in Charge in this Section. He was transferred to the Phoenix Office, headquarters fixed at Tucson, Arizona, on 8-27-53 because of a severe influenza or virus pneumonia which he had suffered in January, 1953, and which had left him in a run-down condition. While in Tucson he suffered from a severe streptococcus throat infection, also. He returned to the Domestic Intelligence Division on 6-4-54, and on 7-18-54 he was designated as Inspector. On 11-19-54 he was designated Section Chief of the Central Research Unit. It is noted that in the last official physical examination afforded him on 3-8-57 he was certified for strenuous physical exertion.

The Director last saw Mr. Sullivan on 9-14-55, when Mr. Sullivan called to express his appreciation for his promotion to Grade GS-16 which was effective 9-11-55. The Director told him he had done an outstanding job in his duties as Chief of the Central Research Section, and that the Director was happy the Bureau could promote him in grade and salary.

During the portion of the year 1957 just passed, Mr. Sullivan has been neither commended nor censured by the Bureau. However, numerous commendatory letters have been received by the Bureau expressing highly commendatory remarks concerning lectures given by him. On 3-30-57, Inspector Moore rated him Excellent, said he was available for special and general assignment, he was capable of and interested in administrative advancement; he was, however, outstanding in the research field and does extremely valuable work administering research programs. He was also an outstanding lecturer.

By letter dated 8-2-57 the Director congratulated him on the occasion of his sixteenth Anniversary with the Bureau. By memorandum of

8-26-57 he advised that he had returned from Massachusetts the night before and on getting off the train in Union Station about 12:15 a.m., the heavy metal platform which covers the steps came loose from its hook and slammed down, hitting him across the right side of the head and eye. The blow was a stunning one and his face commenced to swell around the eye region. He was treated at Casualty Hospital. This memorandum was submitted for record purposes.)

(By memorandum dated 9-11-57 he advised he had received a letter from Lieutenant General Garrison H. Davidson, Superintendent of the U. S. Military Academy, West Point, New York, inviting Mr. Sullivan and his wife to be guests of West Point for the Army-Nebraska game on 9-28-57. He said quite obviously this was a courtesy and kindness directed toward the FBI and not toward himself, that it was received only in his capacity as a representative of the FBI relative to lecturing at West Point. Therefore, he said it seemed to him that the Bureau would want to indicate its preference in this matter, and that he had no personal interest in the invitation one way or the other. Bureau action on this memorandum was in the affirmative.)

His daily average overtime for the past six months was as follows; March, 3 hours 28 minutes; April, 2 hours 06 minutes; May, 2 hours 59 minutes; June, 3 hours 01 minute; July, 2 hours 41 minutes; and August, 3 hours 15 minutes.

As of January, 1957, Mr. Sullivan listed his office of preference as Present Assignment - Seat of Government.

Dear Mr. Hoover:

On behalf of the faculty and student officers of the Naval Intelligence School, I would like to express my sincere appreciation for the excellent lecture presented to the Air Intelligence Division of this school, by Mr. W. C. SULLIVAN on 24 September 1957.

The knowledge gained from Mr. Sullivan's lecture will be of great value to the students in performing their various duties as Air Intelligence Officers throughout the fleet. Mr. Sullivan's expert knowledge of the subject and excellent lecturing ability was indeed a great inspiration to both students and faculty.

**TRAINING OF BUREAU PERSONNEL
IN THE DEVELOPMENT AND HANDLING
OF SECURITY INFORMANTS**

In connection with regional conferences currently being conducted in the field by Bureau representatives for purpose of training personnel in the development and handling of security informants, SAC Auerbach has submitted the following observations and recommendations as a result of the conference held at Chicago Office 10-10, 11-57:

The conference was worthwhile, practical, well-handled by Bureau representatives F. J. Baumgardner, W. C. Sullivan and J. D. Donohue, and field Agents participated in wholehearted manner. There was some groping on part of field Agents attending for first time but this comment not intended as criticism if it indicates additional interest by field to get fresh ideas and enthusiasm. Except for participation by several Agents experienced in informant work, there was apparent lack of continuity of Agents involved in such matters. SAC Auerbach's point, apparently, is that such conferences should be attended largely by those Agents who have had long and continuous experience in informant work.

SAC Auerbach strongly recommends that such conferences be continued and even expanded in future. He suggests that future conferences be held among offices having similar problems rather than on geographic basis, and that Agents selected to attend receive recognition for this honor by appropriate notations in their personnel files.

OBSERVATIONS:

These security informant conferences are still in progress and Bureau representatives are still in the field. At the completion of the conferences, a comprehensive memorandum will be submitted evaluating the suggestions made by all participants and appropriate recommendations will be made at that time.

Inspector Sullivan had to discontinue his participation in the series of security conferences by reason of illness. He terminated his work at New Orleans and returned by train to Washington, arriving here at 4:30 a.m. today. He is now confined at his rooming house at 508 East Capitol Street (phone Lincoln 7-9778).

On your instructions, I telephoned Mr. Sullivan at noon today. He told me that his current condition is bronchitis which developed as a result of a cold which he contracted in Chicago about two weeks ago while on these assignments, and he could not shake it. It became worse and he consulted a doctor in New Orleans who prescribed achromycin which he is continuing to take. He is remaining in bed. He has a local personal physician whom he will contact in the next day or so. He states that he feels he has the ailment under control now. His fever had been elevated about 1 1/2 degrees but is now normal. He indicated that he felt two or three days of rest and continued medication would enable him to get back on his feet. I told him the Director was very much concerned and wanted him to be sure to take all the time he needed and in addition, to let us know if there was anything at all that he would like to have.

b6

Inspector Sullivan was very appreciative. He said that his landlord and landlady, [redacted] are like second parents to him and are available there at his beck and call. There is also a counselor of one of the National Academy groups rooming at the same place. I asked Mr. Sullivan if he would like to have a nurse from the Health Service visit him just to give him a checking over and he said that he didn't feel it was necessary at this point but he wouldn't hesitate to let me know if he thought a nurse could do any good.

I told Mr. Sullivan that if he wanted any prescriptions filled or any other services of this nature, all he would have to do is give me a call.

Dear Mr. Hoover:

H. L. Hunt

Thank you very much for your kind and thoughtful message which I received last night. It is quite moving to realize you would take the time from your urgent and countless responsibilities to remember me.

Please accept my own apologies for my being "out of the running" for the past few days. I contracted a cold in Chicago two weeks ago during out Conference on informant development there. It followed me into Ohio where I had a talk to give to a law enforcement convention and then persisted on accompanying me to the west coast. Finally, in New Orleans, a minor flare up of my old bronchial infection occurred and the doctor there put me on tetracycline and suggested I cease activities for a short time. I had one more lecture to give - at Fort Knox, Kentucky - and I am sorry I failed you in this matter. My recovery has been a quick one and Tuesday or Wednesday will find me at work again. I have at long last got it through my thick head that with this chronic bronchial weakness I have it is impossible for me to ignore or work off a cold. But, rest will do it.

Events of the past couple of months in particular are real disturbing. aren't they? I refer to Russian (1) jet plane progress; (2) ICBM; (3) Sputnik and (4) the Mideast Red aggression. For the past couple of years you have had to wage the fight (almost alone at times) for the continued maintenance of an adequate internal security program for the Nation against influential public figures who would all but dismantle it. In the light of these recent events (plus the conviction in the Abel Case) will these powerful opponents of internal security remove their ostrich-like heads from the sand to recognize the reality of the situation which you have been forcefully and clearly describing? We must wait and observe, knowing only too well that "there are none so blind as those who will not see."

Thank you again for your remembrance and your offer of assistance. I am once more grateful to you. As I said above I expect to be back this week, fortunately, at "the same old stand" plugging away at our ever fascinating and challenging work with renewed vigor.

Sincerely,

Bill Sullivan

Inspector W. C. Sullivan called from New Orleans at 10:25 p.m., October 23, 1957, and advised that he is suffering from bronchitis and that he has consulted a physician who has been giving him antibiotics and has told him he would be unable to conduct a lecture which he has scheduled at Fort Knox on October 25, 1957. Correspondence concerning this lecture was received from Brigadier General James I. King, Assistant Commandant, Armored School, Fort Knox. The person Sullivan was to contact at the school upon arrival is Second Lieutenant [redacted] BOQ 10, Room 9, telephone Fort Knox 5154. Sullivan had arranged to arrive at Fort Knox on October 24, 1957, and arrangements had been made for him to stay that night in Building 4070, Room 1. The lecture is before the regular officers who are students and instructors at the Armored School and is to be on the subject Communism in the United States. Sullivan stated this lecture was not of prime importance and he said he has never lectured there before as he has never been able to make it when previously invited. Sullivan suggested that a call be made to the Louisville Office which could ascertain from Fort Knox whether it was desired that the lecture be cancelled or a substitute sent. Sullivan stated that he will return directly to Washington probably on October 24, 1957.

when advised and depending upon Sullivan's recovery, could re-schedule the lecture. Talburt stated he would do this and would send a letter to the Bureau.

ADDENDUM: (JJM:jmr) Mr. Sizoo referred this matter to my office and Mr. McGuire contacted ASAC Talburt, Louisville, instructing that he immediately get in touch with the Army at Fort Knox and advise that Sullivan had been taken sick in New Orleans, that it would be necessary to cancel his talk before the advanced Army class of officers scheduled for tomorrow morning, and to inquire as to whether the talk could be scheduled on one of several alternate dates in the future when the class would still be in session so that the Bureau could re-schedule the lecture. Talburt stated he would do this and would send a letter to the Bureau.

SUBJECT: "COMMUNISM IN THE UNITED STATES"

In connection with the book project I wish to set forth the following brief resume of various people in the Bureau who have been of primary assistance.

1. [redacted] assigned to the Crime Records Section, has worked exceedingly hard on the book and did most of the first draft in 1954, which I later tried to work into final form and was subsequently worked over by Bill Nichols. [redacted] did considerable of the revision work which I also worked over as did Bill Nichols. [redacted] knows the most of the book and, when the galley proofs are received, he should have the responsibility of checking them with whatever assistance he needs. He should also have the responsibility for the preparation of the index. I think it would be well at this time to commend [redacted] for his assistance.

2. William C. Sullivan, prior to our taking over the project, conducted considerable research which was later used as a basis in the preparation of the book. He has generously provided research material, offered his criticisms, and next to [redacted] has rendered the greatest amount of service. I think he should now be commended for his assistance on the book.

3. Supervisor [redacted] of the Domestic Intelligence Division was of considerable assistance in making suggestions, providing research material, and in reading the manuscript. He has been most enthusiastic in his assistance. I think he should be commended at this time.

5. Special Agent [] of the Crime Records Section did the first rechecking job of the manuscript against original source material for accuracy. His performance was excellent. I think he should now be commended..

6. There were others who assisted in the Crime Records Section, including Special Agents [] and []. In addition, Mr. Jones carefully reviewed the manuscript and made several excellent suggestions. I think one letter should go to Jones for the assistance of the entire section.

7. [] of Crime Records has been assisting [] on this project since last April, checking files, getting material together, conducting research, and keeping track of exhibits and documentary material. Her work has been invaluable. I think she should be commended. She did an excellent job on the Whitehead book "The FBI Story," which stood her in good stead on this book.

8. [] of the Crime Records Section rendered considerable assistance in the proofreading, sequencing of pages, and getting the mechanical details in order. I think she should be commended.

9. [] of the Bureau Library aided in running down pamphlets and books, public source material, and in securing books from the Department Library, as well as from the Congressional Library. I think she should be commended.

10. [redacted] file clerk assigned to Publications Section of the Records Branch of the Division of Records and Communications, was most helpful in locating publications and public source material. I think she should be commended.

[redacted] of the Mechanical Section ran the pages off on the Duplimat machines. He was most cooperative and did everything possible to turn out an excellent job promptly. I think he should be commended.

12. [redacted] did most of the original typing. In fact she virtually typed the entire first draft. She also worked on the retyping of the pages revised. I think she should be commended.

13. [redacted]
[redacted] also did typing at various stages.

In addition to letters of commendation for those whom I have recommended above, I would recommend that the names of all people set forth in this memorandum be designated to receive an autographed copy of the book once it is published. I think they should be among the first to receive autographed copies of the book.

**SERIES OF CONFERENCES
ON TRAINING OF BUREAU PERSONNEL
IN THE DEVELOPMENT AND HANDLING
OF SECURITY INFORMANTS
(Held in October, 1957) (COMMENDATION MATTER)**

The details concerning the series of 5 security informant conferences held throughout the country were furnished by memorandum dated November 4, 1957. The purpose of this memorandum is to recommend commendation for Bureau personnel who participated in this series of conferences.

These conferences were handled in an excellent manner. This was due to several factors. There had been a thorough and detailed preparation in advance, so that guesswork was eliminated and the conferences could be implemented decisively. The team of Bureau representatives--namely, Section Chief Fred J. Baumgardner, Supervisor [redacted] and Inspector William C. Sullivan--were thoroughly acquainted with their subject matter, were experts in the field under discussion, and have a thorough knowledge of Bureau policy and procedures. These factors, coupled with intense enthusiasm and desire to make the conferences work, resulted in a highly successful endeavor.

The enthusiasm can perhaps best be illustrated by the fact that both Sullivan and [redacted] became ill during the trip to the west coast and New Orleans, but insisted on continuing and completing the tour of conferences. In fact, Mr. Sullivan became so ill that he was not able to complete the final conference at New York, much to his disgust.

Each of these representatives played a vital part in these conferences. Aside from my personal observation, I received comments to this effect and I have been advised that Mr. Baumgardner, who was in over-all charge of the conferences, did a particularly fine job in effecting a responsive conference, yet retaining control of the conference.

I was fortunately in a position to attend practically all of the sessions and feel that the conference was well worthwhile. There was a free discussion and a frank analysis of all problems relating to the security informant field from both the field and the Bureau's viewpoint which, as the Bureau does realize, is not always a mutual point of view. I think that the overall policy viewpoint of the Bureau was very well handled by the Bureau's representatives and that there was a goodly amount of necessary explanation in this regard in order to explain to the field representatives the whys and wherefores of some of the Bureau policy.

There was an impressive amount of wholehearted participation on the part of the field representatives, but I felt that there was a good deal of groping by them due to the fact that these agents were for the most part fresh blood rather than the experienced old timer for approximately half to two-thirds of the conferees. If the fact that these agents had not attended before is an indication of additional interest by the field to get fresh ideas and enthusiasm, I would have no comment against this. On the other hand, I have the feeling that with the exception of several guiding experienced agents there has not been a continuity of agents--which in my opinion is so necessary--in the

various field offices. I suspect that in proportion more emphasis is given to other assignments in the field rather than to that of security informants and the necessary continuity of personnel in connection therewith.

It was my impression that the problems discussed were very much down to earth, practical, and that the recommendations arising out of it were not a question of compromise but represented the sincere feelings of the conferees.

The following observations are my own and being furnished for whatever value they may have for future conferences:

1. Such conferences should be on the basis of mutuality of experience and problem rather than geographic location. By this I mean that actually Chicago did not get as much out of the conference as a lot of smaller offices and even these latter would not have the same kind of problem as Chicago. I feel that it might be more productive if Chicago were thrown in with groups like New York, Washington Field, Los Angeles, etc., and the smaller offices were a part of meetings of their own size.
2. It seems to me that there are a great many intangible benefits to these conferences which the Bureau could capitalize on. The fact that the individual agent who is a conferee is chosen to attend the conference reflects a recognition of him as an individual and is real good for morale. He considers it quite an honor and I think that the Bureau should issue instructions that the fact he was selected to attend such a conference by the Bureau be made a part of his field personnel file.

Director, FBI

RE: SECURITY INFORMANT CONFERENCE
October 10-11, 1957
Chicago, Division

I cannot too strongly bring to the attention of the Bureau the excellent manner in which the Bureau's representatives physically handled the conference and its discussions. Of course, a very valuable part of the conference is the fact that it permits the field personnel to "let off steam" on problems which to them are very important but which in the overall, from the Bureau's point of view, might seem quite small. The Bureau's personnel handled this phase very nicely; answered the questions and problems; put it off without useless discussion; and yet made the personnel feel the validity of the policy.

I strongly recommend that the Bureau continue and even expand the policy of holding similar conferences in the future.

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: February 19, 1958

FROM : MR. A. H. BELMONT *ahw*SUBJECT: WILLIAM C. SULLIVAN *WCS*ATTITUDE

The purpose of this memorandum is to report that the captioned employee reported for work on 2-18-58, notwithstanding the extremely hazardous travel conditions. In accordance with the Director's instructions this is to be made a matter of record in the employee's personnel file and considered as a COMMENDATION.

On Saturday, 2-15-58, the Washington, D. C., area was blanketed by fourteen inches of snow as a result of a storm which the Weather Bureau termed the worst that has struck this area in twenty-two years. Thereafter, high winds and near zero temperatures set in for several days making travel conditions extremely hazardous.

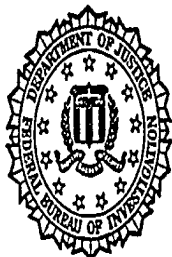

On Monday, 2-17-58, in recognition of the hardships and hazards that Federal Government employees would face in coming to work, a White House announcement was made encouraging such employees to stay home and take a day of annual leave. During the late afternoon of 2-17-58, a further official announcement emanated from the White House instructing that all Government employees who were not considered essential would be excused from work on 2-18-58 on Administrative Leave.

The captioned employee considered his work and his services to the FBI so essential that in spite of the foregoing announcement he took it upon himself to come to work and perform his regularly assigned duties. This is considered a highly exemplary attitude on the part of this employee and his actions in this instance certainly demonstrate his devotion to duty and the fact that he places his employment with the FBI above his personal convenience.

RECOMMENDATION:

That this memorandum be placed in the employee's personnel file.

Dear Bill:

I am aware of the trouble you have been having lately with your health, and want to let you know that you are in my thoughts. There is no doubt but that your entering the hospital will assure an earlier recovery than otherwise.

Please do not fret at being away from the office, and give yourself all the time you need for a full convalescence. In the meantime, I hope you will not hesitate to call upon me if I can be of any assistance.

He left a sick bed to fulfill a commitment to speak at the University of Virginia, Charlottesville, Virginia, on the evening of 2/27/58. He has been under doctor's care at home with bronchitis. Dear Mr. Hoover:

The highly favorable comments I have received concerning Mr. William C. Sullivan's address to the Officer Advanced Class at Fort Holabird on January 28, 1958, which I had the pleasure of hearing, indicate that it was an outstanding presentation.

His address was skillfully organized and presented in such a manner as to provide our students an excellent understanding of FBI operations which will be of considerable benefit to these officers in their future assignments. Mr. Sullivan's extensive knowledge and experience in this type of work was clearly evident in his stimulating address. The presentation served a most useful purpose by proposing and outlining a common ground of understanding for our operating echelons.

Thank you for your courtesy in making Mr. Sullivan available for the presentation and please convey to him the warm appreciation of the staff and faculty of the U. S. Army Intelligence School.

Reference is made to the enclosed communication from the Director to Colonel Thomas M. Larner, Fort Holabird, Baltimore, Maryland. A note on this communication indicated that this reply had been delayed between the receipt of the letter at the Bureau on February 5, 1958, to February 19, 1958, the date of the reply. Mr. Tolson noted: "Where was letter held?"

SULLIVAN, WILLIAM E.

The incoming letter from Colonel Larner was received in the Domestic Intelligence Division 9:26 a.m., February 6, 1958. It was stamped into the Central Research Section at 12:22 p.m., February 6, 1958. The letter was routed to Mr. Sullivan. Upon reading it, Mr. Sullivan was of the opinion that the letter was not of a nature to require acknowledgement and wanted to hold it briefly to analyze for any comments which might serve as a useful guide in the future. Mr. Sullivan developed acute bronchitis over the week end and did not return to his desk until the following Friday, February 14. In Mr. Sullivan's absence, Supervisor [] reviewed this mail and was also of the opinion that it did not require an answer, and, it was held for Mr. Sullivan's return to duty on Friday, February 14.

In arriving at the decision that the letter in question need not be acknowledge Sullivan and [] were guided by a similar letter to the Director from Lt. General Garrison H. Davidson, who made several favorable comments regarding a comparable lecture by Mr. Sullivan at West Point. This letter was not acknowledged even though it was written by the Superintendent of West Point. It is noted that the letter from Fort Holabird was written by a subordinate officer rather than Major General Richard G. Prather, the commanding officer of the post. The letter from General Davidson was routed to Central Research just a few days before the receipt of the letter from Fort Holabird. General Davidson's letter is also enclosed. Upon Mr. Sullivan's return to duty on February 14, he digested the letter and it was sent to Records Section to be placed on record. After being recorded, there is no indication that the mail was returned to Central Research or the Domestic Intelligence Division.

RECOMMENDATION:

Dr. Don S. Knowlton advised on 3/11/58 *when* personally contacted by the writer that he had released Inspector Sullivan from the hospital on that date. He stated Inspector Sullivan's condition was greatly improved but that his system was still weakened from his respiratory congestion. He recommended that Inspector Sullivan not return to work for approximately two weeks in order that he may further recuperate. The doctor expressed the hope that Inspector Sullivan would spend this time at his home in New England where he could relax in an atmosphere completely removed from his duties and responsibilities in Washington.

Inspector Sullivan on 3/12/58 advised he expected to depart Washington by train March 13, 1958, for his home in Bolton, Massachusetts. He did not indicate when he contemplated returning and apparently will be governed by how he feels. He indicated that he had remained in Washington an extra day in order to rest prior to making the train trip.

Dr. Don S. Knowlton telephonically advised on March 10, 1958, that Inspector W. C. Sullivan's condition is much better than when he was admitted to the hospital. Dr. Knowlton feels that if progress continues Inspector Sullivan could be released from the hospital on Thursday or Friday of this week but that he should not return to duty for approximately two weeks thereafter.

Dr. Knowlton indicated he felt Mr. Sullivan would benefit more by spending the two weeks with his family in Massachusetts than by staying in Washington. He indicated he had not discussed this specifically with Mr. Sullivan as he felt that Mr. Sullivan might be "led" into this idea better than forcing it upon him. The writer assured Dr. Knowlton that it was your wish and the Director's wish that Mr. Sullivan take sufficient time to completely recover prior to returning to duty.

WILLIAM C. SULLIVAN

Mr. Sullivan has a most effective personality and personal appearance and makes an outstanding impression as a Bureau representative. During the rating period he has served in the research field in an administrative capacity and has not handled investigative matters but has the ability to handle the most complicated investigative matters and the ability to participate in raids and dangerous assignments and to lead such assignments.

In his capacity as chief of the Central Research Section Mr. Sullivan has supervised the preparation of monographs, summary memoranda, and various analyses on both security and criminal matters. These have been most effectively done and have been of great assistance to investigative agents in the field and also to Bureau officials and to many other top government leaders. Various intelligence agencies have commented on the fine work done in this field. Mr. Sullivan is extremely energetic and this is reflected in the enthusiastic efforts of his section. The research done by this section is extremely thorough and the final report is always most carefully prepared. Mr. Sullivan administers his section in such manner as to get the maximum results from the personnel available.

During the rating period Mr. Sullivan has represented the Bureau before many extremely important groups and has done an outstanding job. Representatives of these groups have been most praiseworthy of Mr. Sullivan's talks.

(During the rating period Mr. Sullivan used 291 hours of sick leave whereas he earned only 104 hours. This was necessary mainly as a result of a bronchial weakness which Mr. Sullivan has had for a considerable period of time.

By letter dated November 8, 1957, the Director commended Mr. Sullivan for the extensive assistance rendered by him in preparation of a manuscript on communism in the United States. Again by letter dated November 21, 1957, the Director commended Mr. Sullivan for his work in a series of conferences dealing with the development and handling of security informants. On February 19, 1958, Mr. Sullivan was commended for his highly exemplary attitude in reporting for work on February 18, 1958, notwithstanding the extremely hazardous conditions.

Mr. Sullivan is available for assignment wherever his services may be needed. He is an extremely loyal and capable member of the FBI and can be counted on to do a most effective job as a Bureau representative in any assignment.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
~~+~~ Outstanding (exceeding excellent and deserving of special commendation).
~~E~~ Excellent.
~~✓~~ Satisfactory (good or very good).
~~-~~ Unsatisfactory.
~~O~~ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

With reference to my memorandum of April 8, 1958, concerning the desire of Major General R. C. Harmon, head of the Legal Department of the Air Force, to have the Director address the General Counsels Group at the Pentagon on either May 13 or June 10, in accord with the Director's instructions General Harmon was recontacted and advised of the Director's commitments which preclude his being with this group on either date.

This morning General Harmon recontacted my office expressing understanding of the problems confronting the Director which preclude his personally appearing. He advised that Assistant Attorney General George Doub of the Civil Division would now be definitely scheduled to address this group on May 13. He wondered if the Director could possibly have someone else from the FBI talk to these heads of the legal departments of the various agencies of Government at their luncheon meeting at the Pentagon at noon, on June 10. General Harmon stated he had heard most favorable comments regarding recent addresses made by Supervisor [redacted] particularly from [redacted] who heard [redacted] address Army and Navy wives earlier this spring. General Harmon was advised that [redacted] assignments later on this spring and early summer called for his being in another part of the country but that Mr. Hoover would be advised of his request and, if it was at all possible to make someone available, the Director would be glad to do so. [redacted] you will recall, will be on the West Coast in connection with the Bureau's motion picture film.

Inasmuch as this group is comprised of the general counsels and heads of the legal departments of the various agencies and executive departments of the Federal Government, I would like to suggest that Inspector W. O. Sullivan be designated to talk to this group on June 10, and that his address follow the pattern of the appearance he recently made before the University of Virginia Law School as I believe this type of presentation would

Possible additional action:

1. For me to interview each of the 11 clerks in section for these purposes: (a) Evaluate morale; (b) Evaluate No. 1 Man (Sullivan claims he is dedicated, loyal, competent, and a valuable No. 1 Man, although he is a perfectionist, tends to interpret and enforce rules literally whereas at times he could profitably temper some with judicious flexibility) - I think this is crux of matter, especially where dealing with female employees; and (c) try to clear decks of any harbored complaints or personality clashes - it must be realized interviews will have to be guarded and extremely tactful. I will do these interviews, if you think necessary. *no*

SUBJECT: ACCUSATION ON BIRTH CONTROL

Reference is made to your statement made to me on September 29, 1958, to the effect that an accusation had been made (the source of which you did not disclose) that I called into my office a married female employee of the Central Research, believed to be Catholic, and asked why she did not have any children and was she engaging in birth control. You further said that you did not know who the female employee was or when the alleged situation occurred. You wanted to know if the accusation is correct.

The Answer

The answer is NO. I wish to state without qualification or equivocation of any kind:

- I. I have never called into my office at any time any person, male or female, and asked why he or she had no children or were they engaging in birth control.
 - A. If any person said I did, that person is an unprincipled liar and I welcome the opportunity to tell that person so face to face in the presence of any number of witnesses.
 - B. If any person in this Bureau has twisted, mutilated, or distorted another person's statement about this accusation that person is equally unprincipled and a malicious trouble maker of the lowest kind, not worthy of employment in the Bureau.
 - C. If any person has picked up such a distorted statement and gossiped and carried the gossip to a Bureau official, that person is of his or her very nature a cheap, taudy sycophant repulsive to any thinking individual.
- II. Further, I want to state I have not raised such a question of birth control with any person at any time in my life before or since I entered the Bureau during or after working hours. It just happens to be something I've never done.

III. Birth Control

With that said, I wish to bluntly state that I am opposed to birth control. I consider it immoral as I do abortion. Too often

Memorandum to Inspector H. L. Edwards

birth control means no births and no control. I regard, rightly or wrongly, self-discipline, self-denial, and self-sacrifice to be the very essence of character. This position I incorporate in my over-all philosophy of life. This position I will defend now and at any time in the future against any person who takes the aggressive and attacks it. But, never have I nor will I try to impose my own views on others. Similarly, never have I nor will I raise such a question as I have been falsely accused of doing.

IV. The Seriousness of This Allegation

This allegation made against me is a serious matter. It is such a vicious and contemptable thing that one can reasonably suspect the emotional and mental stability of the person who made it or fabricated it, or who carried a foul, distorted tale to a Bureau official.

Ascertain the Truth

Because I have served 18 happy years in this Bureau and because the charge made reflects negatively upon me, I am respectfully asking this Bureau to ascertain the full truth in order that my record may be cleared in this case. It would seem to me this case should be pursued relentlessly and tenaciously until the truth is ascertained and the guilty person or persons subjected to drastic disciplinary action. If this is not done the malicious trouble making propensities of the person or persons involved will continue unabated. They will keep the Bureau disturbed and will result in loss of time, money and effort, not to mention the maligning of characters.

Possibility

If any Bureau employee did make such a statement, I have no way of knowing who it could be. However, I have checked the records of this Section for the past three years (since the beginning of the Section). Set forth below are the names of female employees who were married when they worked here. These are:

Memorandum to Inspector H. L. Edwards

The following are married female employees presently working in the Research Section:

- 1.
- 2.
- 3.

Recollection b6

Since this pernicious charge has been levied against me I have tried to recall when was the last time I discussed the subject of birth control with any person. To the best of my recollection, I last discussed the subject sometime in 1952 with a [redacted] now head of the American Enterprise, Incorporated. As I remember, he had been engaged in a conversation on the subject and he wanted to explore with me some of its philosophical and scientific ramifications.

Requests

1. I respectfully request that the Bureau interview each one of these employees to ascertain the facts.

2. While fully understanding the Bureau's need to conceal sources of information I do hope that the Bureau in this instance will inform me as to who made this allegation for I would like to talk to that person directly. I make this request for the person responsible for this allegation cannot rightly be honored with the description of a source of information. Such a person can only be described as an evil-minded, serpent-tongued cutthroat and a disgrace to this Bureau. This is gossip and rumor of the most deadly kind. Well did Shakespeare write in his play Much Ado About Nothing of the many:

"Done to death by slanderous tongues."

I can fully appreciate the grave concern with which the Director has just recently condemned in no uncertain terms the gossipers and rumor mongers in the Bureau. They are not many and they are not all in the Domestic Intelligence Division. But they are a devastating influence to the well-being of this Bureau.

PART II

Reference is made to the other questions asked by you as follows:

Question 1: Did you ever give instructions to the effect that no employee was to leave his desk except at the appointed "break" periods?

Answer: No, I have never at any time issued such instructions.

Memorandum to Inspector H. L. Edwards

Question 2: Did you ever give instructions to the effect that candy, chewing gum, et cetera, were not to be kept in desks?

Answer: No, I have never at any time issued such instructions. I have regularly instructed employees to keep their desks neat and clean.

Question 3: Have you ever given any instructions to the effect that employees must give a specific, detailed account of the personal nature of their illnesses when they claim sick leave?

Answer: No such instructions were ever given by me.

Request

May I request respectfully that the Bureau interview every person in my Section, clerical and Agents. I have absolutely nothing to hide and I know no better way of exposing despicable and filthy-minded trouble makers than to get all the facts squarely on the top of the table in the clear light of the day.

Dear Mr. Hoover,

It is with pleasure that I express the appreciation of the United States Army Intelligence School for the outstanding presentation by Mr. William C. Sullivan, on the operations of the Federal Bureau of Investigation, to members of the Military Intelligence Officer Advanced Class at Fort Holabird on October 21, 1958.

This address was one of the most interesting and informative lectures ever presented at this School. Mr. Sullivan's material was effectively organized and skillfully presented, and should assist our students immeasurably in their future performance of duty. The talk considerably enhanced the program of training for this group of officers and should do much to promote a spirit of mutual support and cooperation between our operating units.

Dear Mr. Hoover:

Yesterday afternoon I received your letter informing me of my promotion to GS-17. It came as a moving and thought provocative surprise. Please accept my simple thanks.

My first impulse was to call for an appointment to see you and thank you in person. However, being mindful of how extremely busy you are, and being further aware that this week you are especially burdened, I am writing you this letter instead.

Although unworthy of the promotion, I must admit that the confidence you have placed in me by this recognition is both encouraging and gratifying. I shall make a real effort through my work to become at least somewhat worthy of this promotion in the days ahead. If I succeed to any extent in this endeavor, it will be largely due to the talented and dedicated employees with whom I work in the Central Research Section.

The following is a brief and concise summary of Mr. Sullivan's personnel file for the Director's use.

SA Sullivan entered on duty 8-4-41 and was assigned to a number of Field Offices before being assigned to the Seat of Government on 6-25-44. He is presently assigned as Chief of the Central Research Section in the Domestic Intelligence Division, and he had previously served as Supervisor and as Supervisor in Charge in this Section. He was transferred to the Phoenix Office, headquarters fixed at Tucson, Arizona, on 8-27-53 because of a severe influenza or virus pneumonia which he had suffered in January, 1953, and which left him in a run-down condition. He returned to the Domestic Intelligence Division on 6-4-54; on 7-18-54 he was designated as Inspector and on 11-19-54 he was designated Section Chief of the Central Research Unit. On 10-31-58 he was promoted to Grade GS-17.

The Director saw Mr. Sullivan on 9-14-55, when Mr. Sullivan called to express his appreciation for his promotion to Grade GS-16 which was effective 9-11-55. The Director told him he had done an outstanding job in his duties as Chief of the Central Research Section, and that the Director was happy the Bureau could promote him in grade and salary.

RECORDED - 149

67-205182-368

During the portion of the year 1958 just passed, Mr. Sullivan has not been censured, he has received two letters of commendation. By letter dated 8-4-58 the Director congratulated him on the occasion of his Seventeenth Anniversary with the Bureau. Numerous letters have been received by the Bureau expressing highly commendatory remarks concerning lectures given by him. On 3-31-58 Inspector Moore rated him EXCELLENT, and said he was available for assignment wherever his services are needed. He was capable of and interested in administrative advancement. He had unique talents, however, in the research field and was doing an outstanding job in his present position. During the rating period he used 291 hours of sick leave whereas he earned only 104 hours. This was necessary mainly as a result of bronchial weakness which Mr. Sullivan has had for a considerable period of time.

By memorandum dated 9-30-58 Mr. Sullivan submitted a strong unqualified denial of an allegation made during an inspection of the Domestic Intelligence Division that he had called into his office a married female employee, believed to be Catholic, and asked why she did not have any children and was she engaging in birth control. He also stated that he had never at any time issued instructions that no employee was to leave his desk except at the appointed "break" periods, that candy, chewing gum, etc were not to be kept in desks, or that employees must give a specific, detailed account of the personal nature of their illnesses when they claim sick leave. In this connection, the Director commented " I can well understand Sullivan's indignation. It is just as I anticipated-a vicious and malicious lie. I see nothing to be gained by further pursuing this matter. I have complete confidence in Sullivan's integrity and good judgment. H."

His daily average overtime for the past six months was as follows; April, 1958, 1 hour 33 minutes; May, 3 hours 37 minutes; June, 2 hours 56 minutes; July, 4 hours 7 minutes; August, 2 hours 31 minutes; and September, 2 hours 48 minutes.

As of January, 1958, Mr. Sullivan listed his office of preference as Bureau.

Your Inspector William C. Sullivan was one of the best we ever had at the Cathedral Luncheon Club. No doubt you have heard these words before.

While I don't know that there is any immediate action we can take to prevent the necessity of law enforcement, as we did when Inspector W. H. Drane Lester spoke on March 8, 1939 - I am sure the men were impressed with the theme of preventing crime which costs more than all education - and I am sure some good will come out of Inspector Sullivan's special trip to address the Cathedral Luncheon Club.

With unending appreciation for all you have done for us - and wishing you the best of "Smooth Sailing" -

With reference to your memorandum yesterday concerning the brief prepared in the Records and Communications Division on the Fred J. Cook article and the Director's notation appearing thereon, I should like for the Director and you to know that I, and those persons responsible for the preparation of the brief, are deeply concerned that it does not meet the standards you expected. Such shortcomings as may be noted resulted from a question of judgment and I can most sincerely state not from a lack of interest. It is respectfully requested that we be given the opportunity to clarify any defects in the brief and put it in such shape that it will meet every requirement.

As to the Director's inquiry "Just who handled the atrocious job in attempting to analyze the Nation article," aside from chapter 8 which was prepared by the Investigative Division, and chapter 9 by the Domestic Intelligence Division, this analysis was handled in the Crime Records Section. The bulk of the project was prepared by SA's [redacted] However, in view of the scope of the project and the workload of the section, there are various other supervisors who assisted from time to time.

Concerning an index, this brief should, of course, have one and one is being prepared. In order to meet my deadline, the brief in its present form was sent to my office Friday evening and copies sent to Messrs. Belmont, Mohr and Sullivan for review and any suggested changes. At the time the brief was given to you, such suggestions had not been received. In discussing the matter with the persons involved, it was pointed out that they felt a complete index could not be prepared until the analysis was completed and any suggested changes made. Nevertheless, work was begun on an index yesterday morning prior to the time you spoke to me concerning the matter. At that time, I was not aware that the index was actually in progress.

As to the worthiness and usefulness of the over-all brief, we feel that it does its job in exposing Cook as a prevaricating character assassin and virtual intellectual prostitute and specific points of inaccuracies are set forth.

As to the [redacted] case, there is, of course, on hand and available much more data on this topic than is included in the brief. In order

to keep the brief in workable length each item or instance was separately evaluated for pertinence and proportionate space allowance. Chapter 6 of the article in which the [] case is dealt with, is entitled "A Question of Credit," the theme being that the Bureau hogs publicity. The [] case is one of a series mentioned and throughout the chapter we attempted to show the folly of Cook's statements. I do think, however, that the items dealt with in this chapter were perhaps briefed down too much and I find that this is the last chapter prepared and it was kept concise in order to meet my deadline on the brief. *It was valueless* ✓

In the analysis, we went behind the data Cook had taken from Lowenthal. This was done by extensively utilizing the mammoth analysis made of the Lowenthal book when it was published. In this way we found out where Lowenthal was wrong and hence Cook was wrong. We likewise checked independent sources such as: Bureau files, congressional hearings and "Congressional Record," books, magazines, Annual Reports of the Department of Justice, Appropriations Testimony, newspaper clippings, New York Times Index, statements and speeches by the Director, articles and books by the Director, Uniform Crime Reports bulletins, and FBI Law Enforcement Bulletins.

In addition, we utilized the full facilities of the Bureau, the Department of Justice, and the Congressional Library.

In conclusion, again I respectfully request the opportunity to complete this brief in a manner that will meet with the full approval of the Director and you. You may be assured that sufficient people will be assigned to this project to see that it is completed by the end of this week.

Dear Mr. Hoover:

I wish to thank you for permitting Mr. William C. Sullivan of your Bureau to address the meeting of scientists which was convened by the AEC during the two-week period beginning November 3.

These individuals had been asked to make recommendations with respect to the Commission's classification policy in the weapons field and knowledge of the activities of Communists in the United States was of very great importance to their deliberations. Mr. Sullivan's address was both timely and complete, and I know from the reaction of the group that his presence and his remarks eminently fulfilled the intended purpose.

The following thoughts are set forth for the information of the Director relative to the lecturing being done by W. C. Sullivan outside the Bureau.

During the past two to three months, Sullivan has kept over 20 lecture assignments in various parts of the country. Some of these have been quite concentrated in that they have been given within a few days of one another. For example, three lectures were given within a four-day period--one in Missouri, a second one in Kansas, and a third in Indiana. Again within this short span one was given in Colorado, with a second one in New York, and a third in Massachusetts.

These lectures have been given to diverse groups including public gatherings; members of Army, Navy, and Air Force conferences; students at military schools and colleges; a gathering of chaplains of the American Legion; and audiences composed of scientists. Materials used for a number of different types of lectures given ranged all the way from nonclassified to "Top Secret."

It is believed that this concentrated lecture schedule during the recent past was a very good thing in view of the current smear attack being delivered against the Bureau by the "Nation" magazine, the "New York Post," et cetera. These lectures have served as a good vehicle through which to get across the various ideas which the Bureau wishes to have emphasized in connection with counteracting the smear attack.

CLASSIFYING

Sullivan has on his schedule to be given during the first part of 1959 the following lectures: (1) the Social Science Forum, Siena College, Loudonville, New York; (2) the United States Military Academy, West Point, New York; (3) a Communion Breakfast speech, Washington, D. C.; (4) U.S. Strategic Intelligence School, U.S. Army, Washington, D. C.; and (5) the Political Association of Vassar College, Poughkeepsie, New York.

NOTED

A few more may be coming in within the next two or three weeks, and then the lecture schedule will taper off until next fall.

Memorandum to Mr. Belmont
Re: LECTURES BY W. C. SULLIVAN

Unless the need for it exists, as was the case this year, Sullivan is of the opinion that next fall his lectures should be highly selective. A representative number might be delivered at colleges and universities in areas from which come substantial criticism of the Bureau in one form or the other. He is of the opinion that this type of lecture open to the public will give him a greater chance to get across the Bureau's point of view in channels where public opinion is molded. It will be recalled that the Bureau approved of a lecture to be given at Harvard University, but for this year at least Harvard University decided to back down on the matter. It is Sullivan's opinion that next year, if more normal conditions prevail for the Bureau, his lectures should be spaced approximately three weeks apart from one another and probably limited to about 10 to 15 lectures rather than the 20 to 25 outside lectures scheduled this current season. This, of course, can be easily arranged. Further, it will give Sullivan more opportunity to concentrate on expanding research work in his Section.

Sullivan is looking over the lectures given by his own Section very carefully and is developing two of his men who will be able to substitute for him in the event that he is unable to give one of his lectures scheduled because of the pressure of work in his own Section or for other related reasons. Supervisor [redacted] of the Central Research Section has already been sent to Indianapolis this week to speak to the Advanced Officers Class of the Finance School at Fort Benjamin Harrison, Indiana. Sullivan will follow up this matter to assess the effectiveness of his lecture.

For the information of the Director.

Sullivan has done a remarkably fine job but he has carried too much, both for his physical well being & for his supervisory responsibilities at the Seat of Govt. There must be more selectivity of speeches & better spaced. H.

Army D. I.

W. C. Sullivan

1. On 4 December 1958, Mr. William C. Sullivan presented a lecture on "Communism in the United States" to the student officer classes, members of the staff and faculty, United States Army Security Agency Training Center and School, and selected members of the Fort Devens Army Garrison.

2. Mr. Sullivan's store of knowledge and superior speaking ability resulted in a most informative and thought-provoking presentation. His sincere, personable and energetic manner was a contributing factor in setting a standard that will be difficult to emulate.

3. It is felt that Mr. Sullivan's contribution to the Guest Speaker Program of the United States Army Security Agency Training Center and School has greatly enhanced the success of this program with his thorough coverage of a vitally important subject. The program, conducted in support of the senior officer course, has been richly rewarded with Mr. Sullivan's appearance. His superb delivery of facts has added to the knowledge of the student officers and the staff and faculty.

4. I wish to extend this official expression of appreciation in behalf of myself, the students, the staff and faculty, and members of the Army Garrison who are in unanimous agreement that Mr. Sullivan has created a highlight in our 1958-1959 Guest Speaker Program.

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation

Dear Mr. Hoover:

On Sunday evening, the 30th of November, Inspector William C. Sullivan of your office addressed the United States Air Force Academy cadets of the Class of 1961. Inspector Sullivan's presentation was most informative. Particularly noteworthy was the manner in which Inspector Sullivan analyzed this audience of future Air Force officers and spoke to them at a level commensurate with their progression here at the Air Force Academy. The active question period at the end of the lecture indicated the intense interest of the cadets in Inspector Sullivan's subject.

On behalf of the Superintendent, the officers and the cadets of the United States Air Force Academy, I should like to extend to you and to Inspector Sullivan our appreciation for the contribution of the Federal Bureau of Investigation to our Airmanship curriculum.

Sincerely,

SUBJECT: ANALYSIS OF ARTICLE
"THE FBI," BY FRED J. COOK

Reference

Reference is made to my memorandum dated 12-10-58 outlining the approach to be used in an analysis of the captioned article. Enclosed are the results of the analysis.

What Has Been Achieved

The results of the analysis are most gratifying. They prove the sage observation that much good can come from evil. They also prove the validity of the observation that often it is impossible to see the forest for the trees. This is shown by the fact that an analysis of Cook's article, within the proper perspective of its relation to the present smear campaign directed at the Bureau, shows that:

- (1) The article in The Nation is a compilation of lies, factual inaccuracies, half truths, innuendoes, misrepresentations, and distortions, blended with views which strikingly parallel the Communist Party line, all designed to portray the FBI as a police-state organization.
- (2) The article in The Nation represents not only a focal point for the present smear campaign, but also a manifesto for intensified attacks which will be made against the Bureau during 1959.
- (3) The current smears against the FBI constitute, in reality, a concerted attack on the internal security of the country.
- (4) They conceal deliberate efforts to drive the FBI out of the field of internal security.

Memorandum to Mr. Belmont
Re: Analysis of Article
"The FBI," by Fred J. Cook

- (5) The issues constituting the basis for these efforts have now been clearly identified.
- (6) The Bureau must take positive steps to expose the concealed objective of this smear campaign and, at the same time, must expand its efforts to inform the public of the FBI's true role in our democratic society.

Avoiding Baited Traps

The analysis meets Cook's individual charges by identifying and refuting them with the facts. But, to have done that--and only that--would have led the Bureau into two traps skillfully laid by Cook:

- (1) If Cook's smear attack were met only by refuting it on a point-by-point basis, the Bureau would be adopting a defensive position and, in effect, would be placing itself on trial.
- (2) Similarly, if the Director were placed in the position of responding only to Cook's personal attacks, he too would be forced into defending himself as though he were on trial.

Meeting the Attack

Since Cook's article is the focal point of a concerted attack on the internal security of the country, it can be met only by a comprehensive offensive which includes:

- (1) exposure of his real purpose
- (2) a point-by-point factual refutation
- (3) most important, a counteroffensive on the Bureau's own grounds, based on the proven record of the FBI under the Director's leadership

A Positive Approach

The analysis has been prepared within a format which permits the Bureau to make the strongest possible counterattack based upon the facts. It is comprised of three sections:

Memorandum to Mr. Belmont
Re: "Analysis of Article
"The FBI," by Fred J. Cook

Section I is a proposed statement by the Director which represents the Bureau's positive case for its continued operations in the internal security field.

Section II is an illustration of the striking parallel between the official line of the Communist Party, USA, and Cook's writings.

Section III is a detailed examination of the charges and issues raised by the article. It includes notations of the points which, due to possible public misunderstanding, might be considered as vulnerable.

To facilitate its use, the analysis has been bound in two volumes. The first volume contains the proposed statement for the Director, which is Section I. The second volume contains Sections II and III, the supporting particulars on which the proposed statement is based.

A Forceful Statement

The positive case for the continued operations of the Bureau in the security field, as it is presented in Section I:

- (1) identifies the objective of the present smear campaign,
- (2) reveals the forces behind this campaign,
- (3) exposes their interlocking relationships,
- (4) dissects the broad issues upon which the campaign is based, and
- (5) destroys their basis in fact.

This direct, positive case for the Bureau is grounded solidly on the facts set forth in detail under appropriate topical headings in Sections II and III. While interrelated, each of these Sections also stands independently, thereby affording greater flexibility in its possible use.

Orientation

Every effort was made to prepare the proposed statement in keeping with the Director's stature, dignity, and personality. By minimizing the personal attacks and grounding the discussion of the present smear campaign on the fundamental

Memorandum to Mr. Belmont
Re: Analysis of Article
"The FBI," by Fred J. Cook

issue of the threat to the internal security of the country, the Director's statement is keyed to his long career of outstanding public service. As such it will command the respect of those who are fully cognizant of the responsibilities of his position, and, at the same time, it will dispel the fog surrounding those who have been taken in by the unfounded claim that the Bureau is intolerant of any criticism.

Observation

The over-all good which can accrue to the Bureau from the evil inherent in Cook's attack is obvious. Forewarned by this article of the nature of the attacks yet to come, the Bureau should begin now to take positive action. By refusing to accept the role of a defendant on trial and by confidently assuming a strong offensive based on the Bureau's solid record under the Director's leadership, the Bureau can successfully repel these unfounded attacks, and, at the same time, lay the groundwork for the long-range development of a larger group of influential supporters representing the widest possible cross-section of public opinion. For example, special attention should be given to using the FBI Laboratory to bridge the present gap between American scientists and the FBI. This is a top priority matter because of the undisputed importance of science in the world today, the attention it commands in the American press, and because of the rapidly expanding influence of scientists outside their own field of endeavor.

RECOMMENDATION:

1. That consideration be given to the use of the proposed statement by the Director in an appearance before a Congressional committee or some other official body.
Statement is well prepared. It is too long. I don't think Mr. Hoover should dignify "Nation" with a personal statement of reply.
2. That, as an alternative, consideration be given to adapting the proposed statement for a public address by the Director.
I think not - just on this subject.
3. That consideration be given to adapting the material in the analysis for an article or a series of articles under the Director's signature.

The Nation article should not be dignified by a direct reply from Mr. Hoover. As a 1, 2, 4, 3, at least for time being. I think we should hold for years. The overall product is invaluable not only for the Nation's attack, but is a far more rapid analysis of any forthcoming attacks.

Memorandum to Mr. Belmont
Re: Analysis of Article
"The FBI," by Fred J. Cook

4. That excerpts from the material in the analysis be furnished for guidance to the press, selected newspaper columnists, radio and television commentators, authors, educators, scientists, clergymen, and other influential supporters of the Bureau.

*This is most desirable, such as
in the Mowley series* *Chetlin* *H*

5. That a monograph, based on the analysis, be prepared for dissemination to all field offices and Legal Attaches. That this monograph be designed to provide Agents with discussion material on issues which are certain to be of vital importance in connection with the intensified smear attacks the Bureau may expect in 1959. That it be brought to the attention of all Agents that material in this monograph would also be valuable for use in the development of additional confidential security informants.

In connection with the inspection of the Records and Communications Division, it was recommended and approved that the Publications Desk, Central Research Section, create a central control and repository for book reviews, thus establishing a book review responsibility under the supervision of Inspector W. C. Sullivan. The procedures to be followed are set forth in the enclosed memorandum to Bureau officials and supervisors. These procedures are focused upon (1) eliminating duplication in purchases and reviews and (2) establishing a central repository to answer questions relating to whether a book has been purchased or ordered for review.

It is anticipated that after a 6-month period Central Research can review its experience in this regard and recommend procedures for streamlining or otherwise improving the handling of this matter, including such questions as to the length of time the book review index cards should be retained.

RECOMMENDATION:

It is recommended that the enclosed memorandum to Bureau officials and supervisors be approved so that this program may be placed in effect immediately.

Inspector William C. Sullivan and Supervisor [redacted] of your staff did so excellent a job for the Bureau---and for the Nation--- in Atlantic City earlier this week that it occurred to me that the word should be passed directly to you.

These gentlemen spoke, as you know, at a restricted, no-publicity, meeting of the Conference of National Organizations devoted to discussion of the Communist threat in broad terms. Their presentations opened the day and a half meeting and certainly key-noted it to perfection. I was unexpectedly detained from personal attendance, but a member of my staff who chairmanned the first session and the reports of others make clear that this is true.

Your men not only expressed their information in a manner which held the close attention of this significant audience. They also conveyed incidentally an impressive proof of the grasp that they and obviously the Bureau have of the problem, all the way up to its spiritual aspects. Inspector Sullivan was still being quoted by other speakers late on the second day, many hours and many thousands of words after he had spoken!

The contribution of Messrs. Gray and Sullivan to this conference will have to be measured in a future spread of increased attention to the anti-Communist cause by these some 28 or 29 national bodies involving millions of Americans. They may have done more than they would estimate, in this regard.

Thanks for making it possible for them to be on the program.

Dear Mr. Hoover:

At the Conference of National Organizations meeting in Atlantic City, March 1-3, I had the pleasure of listening to two of your operatives, Messrs. William C. Sullivan and [redacted] and Mr. J. Patrick Coyne, NSC Representative on Internal Security who formerly worked for your agency.

These men made excellent presentations and completely captivated their audience with their discussions at the conclusion of their prepared addresses. The information they gave us was current, vital, however subject to the limits which the agency itself must impose. What particularly impressed me and what I had the pleasure to remark about later was that they seemed more concerned with the humanities than some of the people who were asking questions. In other words, contrary to the often unfairly-expressed opinions of the F.B.I., these men were militantly protective of our civil rights and liberties and the greater majority of us were left with a much warmer feeling toward the F.B.I.

I certainly felt that their honest appraisal of our internal security problems, their answers to the questions that could be answered, and the full and explicit explanations they gave certainly have reawakened and reaffirmed my already high opinion of the F.B.I. and I hope the American people will always have the competency of individuals like yourself and your associates at the helm to cope with some of our nation's gravest problems.

Reference is made to memorandum from W. C. Sullivan to
A. H. Belmont dated March 18, 1959.

In connection with this extensive and complex project, I would like to point out the following: The Director expressed an interest in having this done as soon as possible, but he said that it would not be necessary for the men and women of this Section to work weekends and every night on the project. I believe the Director would like to know, however, that on learning of the Director's interest in getting this complex project done as soon as possible, the employees of the Research Section expressed a preference for working this past weekend and every night in order to get the job done, and this they all did. Some 4,000 references were reviewed in the project which was completed on the March 18 deadline.

RECOMMENDATION:

For the information of the Director.

Dear Mr. Sullivan:

I am writing to commend, through you, the personnel of the Central Research Section for the fine work they did in connection with a special project for my use.

The loyalty and devotion to duty which were displayed were most heart warming and reflected a sincere desire to get the job done as soon as possible. I am aware of the extreme complexity of this project and I want you to convey my thanks to all for the high caliber of their services.

Mr. J. Edgar Hoover, Director

Dear Mr. Hoover:

Thank you for making it possible for our visiting delegation from The Netherlands to meet with representatives of the Federal Bureau of Investigation. Mr. Walter Pasternak, who represented the Society at the meeting, tells me that the delegation was cordially received and that their questions were answered directly and with a candor appreciated by every member of the group. We would like to commend in particular Mr. William C. Sullivan, who directed the discussion and contributed a number of practical suggestions for effectively combating the inroads of communism. An expression of appreciation is due also to Mr. Sullivan's able associates: [redacted] Mr. Charles D. Brennan and Mr. William E. O'Neill, Jr. Their comprehension of this important subject led to an exchange of ideas that I am sure the Dutch will find profitable.

In the presentation to the Dutch group, your bureau contributed to the development of yet another bulwark against further encroachment of communism in Europe providing substantial support to America's national aims as well as the aims of freedom loving people everywhere.

Thank you again for your efforts on behalf of our Society.

INSPECTOR WILLIAM C. SULLIVAN, GS-17
Central Research Section
Domestic Intelligence Division

During the rating period Mr. Sullivan has been Chief of the Central Research Section and has supervised the preparation of monographs, summary memoranda and various analyses of great importance to the Bureau's operations in the security and criminal fields, and also on other aspects of the Bureau's work. These have been prepared in an excellent fashion even though on many occasions they were necessarily prepared in an extremely short period of time. Monographs prepared by this Section have been of considerable assistance to field agents and have also been received extremely well by other government agencies.

Mr. Sullivan makes an outstanding impression as a Bureau representative, has a most effective personality and personal appearance, and commands respect in any discussion or lecture he may give. While his work has been primarily in the research field or as a lecturer, and he has not handled active investigative matters, he has the knowledge and ability to handle the most complicated investigative matters under the Bureau's jurisdiction and the ability to participate in or lead raids and dangerous assignments. Mr. Sullivan is an extremely energetic and enthusiastic Bureau representative and his attitude is reflected in the enthusiastic work performed by employees working under him. His administration of the section enables a limited number of personnel to get a large amount of work done in a quick and efficient manner.

During the rating period Mr. Sullivan has represented the Bureau before many extremely important groups and has done an outstanding job. The Bureau has received numerous letters from representatives of these various groups, commenting on the outstanding nature of Mr. Sullivan's talks. During the rating period Mr. Sullivan was commended by letters from the Director dated 8/28/58, 1/27/59 and 3/24/59, for the outstanding work performed by him and his section in connection with special research and analytical projects of great importance to the Bureau.

Inspector William C. Sullivan
(continued)

Mr. Sullivan has taken an intense personal interest in the Bureau as a whole. He has made numerous suggestions of extreme benefit, affecting all phases of Bureau work and policy, thus applying his undoubted talents to improvement of the Bureau's policies and techniques in the broad area of all Bureau activities, rather than restricting his thinking to his own section. In so doing he has stimulated thought and action on the part of others throughout the Bureau.

Mr. Sullivan is available for assignment wherever his services may be needed, and can be counted on to do his utmost for the Bureau in any assignment. He has unique ability in the research field and has done outstanding work in this field for many years. He is, in all respects, extremely loyal to the FBI.

DOMESTIC INTELLIGENCE DIVISION	ADMINISTRATIVE DIVISION
INSPECTORS - OUTSTANDING ANNUAL PERFORMANCE RATINGS	

There are attached for approval by the Director annual performance ratings for Inspectors Howard B. Fletcher, William C. Sullivan, Leo J. Gauthier and William S. Tavel covering the period from April 1, 1958, through March 31, 1959, rating their services as Outstanding. Mr. Tamm signed the rating for Inspector Fletcher, Mr. Belmont for Inspector Sullivan and I for Inspectors Tavel and Gauthier as rating officials. Information appearing on these reports appears to justify the Outstanding ratings.

Should you approve, it is suggested that these ratings be signed by you as the reviewing official and it is respectfully suggested that thereafter the Director sign them on the line commencing "Rating Approved by:" as the approving official. The original and copy of each rating should be signed. Thereafter these ratings must be submitted to the Department for approval by the Efficiency Awards Committee. Upon approval, they will then be returned to the Bureau and in accordance with the performance rating plan, copies will be directed to these men for their retention. They will also be entitled to cash incentive awards under the provisions of the incentive awards plan. Awards of \$400 each have been approved for recipients of Outstanding ratings in similar positions in the past and it therefore appears that awards of this amount would be appropriate this year. Should you agree, the necessary checks will be drawn and letters prepared for the Director's signature following the return of the ratings from the Department.

RECOMMENDATION:

1. It is recommended that the attached Outstanding performance ratings be approved and that the Director sign the original and copy of each rating and upon approval by the Department, each Inspector be approved for an incentive award of \$400.

2. It is recommended that attached memorandum go forward to Deputy Attorney General Walsh transmitting the Outstanding ratings for final approval by the Efficiency Awards Committee.

Dear Mr. Hoover:

Late yesterday I was both stunned and elated on receiving your letter advising me of the "Outstanding performance rating" and "incentive award" given to me. No thanks of mine could be adequate to convey my gratitude for this kindness. One of the worse things any man can do is to delude himself. And, I shall not delude myself for one moment in thinking I deserve any part of this recognition. But, I shall try to do so in the years ahead.

You referred to the excellent work done in this Section. Let me say, Mr. Hoover, that the clerks, typists, analysts, and Agents here are the ones who made such work possible. I have in this Section an unusual group of people--talented, spirited, individualistic, dedicated, and ardently loyal to the ideals of the FBI. They gladly take on all assignments no matter how difficult or dangerous, challenge anything, argue, think, study, research, write, and when necessary work enthusiastically all night and week ends to get a job done--joking and laughing all the while. They are unique. I have never had the privilege of being with such a group before. I am highly pleased and fortunate that they all found their way into this Section.

The spirit which permeates this Section is general in the Domestic Intelligence Division. It is hard-driving, aggressive, sharp, and visionary. It is a Division--with its espionage and communist work--of which I am very fond and proud.

Dear Mr. Hoover:

W.C. Sullivan

First, let me thank you for the auto-graphed copy of your book, Masters of Deceit. I am eagerly looking forward to reading it. We have studied the topic of Communism in so many of my political science and history courses that I shall enjoy reading the truth about their activities in the United States.

Inspector Sullivan's lecture on "The Role of the FBI in Internal Security" was one of the best lectures that I have heard since I came to Vassar. So many students and faculty members have commented on how worthwhile this lecture was. I believe that more young people should be informed on the nature of the threat of Communism in our country.

On behalf of the Political Association I would like to thank you again for approving this lecture. I hope that someone from the FBI will speak at Vassar again in the near future.

Very Sincerely,

In connection with the interviews conducted by the Screening Committee, consisting of Inspectors H. L. Edwards, W. C. Sullivan and myself, we have run into a rather unusual situation in that Inspector Sullivan is on an extended trip on official business and is not expected to return to Washington until about the end of the first week in July. Inspector H. L. Edwards begins three weeks' annual leave tonight and it will, therefore, be impossible to convene even a two-man committee for interviews during the next several weeks. There are several agents who are due for consideration for promotions during this period and I feel that rather than hold up the interviews until the return of Inspectors Edwards and Sullivan, I should go ahead and conduct any necessary interviews during this period by myself. A similar situation may also arise during August since I will be on three weeks' leave during the latter part of that month and Mr. Edwards will be out of town attending an American Bar Association meeting the last week in August.

It is felt, therefore, that on those occasions when two members of the committee are on leave or out of the city, the third member should be authorized to conduct interviews for the purpose of determining the qualifications for advancement of any agents who are being considered for promotions or any other urgent cases necessitating immediate action prior to the return of the two absent members.

RECORDED 235
 Inspectors Sullivan, Edwards and I have conducted sufficient interviews together so far so that I feel that all three of us are well acquainted with the thinking of the other members of the committee, their views as to the various qualifications necessary and, therefore, any one member should be able to properly evaluate an agent's advancement potential if necessary to conduct interviews alone. Naturally, if any question arose as to the results of the interview, as to the complete suitability of the agent interviewed, he would be rescheduled for interview by the full committee before a final decision as to appropriate action was made. These interviews by one committee member alone would be held to those instances where the other two members were actually absent from the city and there appears to be an urgent reason for conducting the interview prior to their return.

While in the Seattle Division, Inspector SULLIVAN made four public appearances before an estimated 820 individuals. He also lectured to the entire Security Squad of the Seattle Office in a joint meeting with the intelligence representatives of the Army, Navy and Air Force. He held a seminar for all Seattle Agents and spoke at a conference of clerical employees.

It is rather rare that enthusiasm can be engendered and maintained over such a period of time and with such diverse groups as addressed by Inspector SULLIVAN, but he accomplished this, meanwhile creating an abundance of good will.

The Seattle Division is grateful for the contributions made by Inspector SULLIVAN and appreciative of the action by the Director in making Inspector SULLIVAN available in the Seattle area.

Separate memoranda are being submitted for each of the Inspector's appearances while in the Seattle Division.

Dear Mr. Hoover:

Speaking for the Rotary Club of Seattle, and personally, I want you to know what an outstanding talk William C. Sullivan delivered to our Rotary Club on June 17.

I have had many, many calls from prominent members of our Club complimenting the F.B.I. as an organization in making available a well qualified speaker on such a vital and important subject as the internal security of our country. I am sure you will be pleased to know that he represented the F.B.I. in a very creditable manner. His remarks were informative, factual and direct.

May I suggest that the F.B.I. expand its contact with prominent business organizations in acquainting them with the facts as outlined in Mr. Sullivan's talk. Notwithstanding that many of our members, numbering more than 550, are very well informed business leaders, they found a great deal of new information in Mr. Sullivan's comments.

I think making available a man with Mr. Sullivan's knowledge of internal security to speak to community and civic groups has many advantages; it helps to provoke thinking on the vital subject of internal security; it enables distinctions to be drawn between fact and fiction; calls attention to the need for facing our internal security situation objectively; illuminates the need for original and fearless thinking; directs attention to the need to support and further the internal security program of the nation; and enables the citizen to have a better understanding of the negative and destructive nature of Communist philosophy as contrasted to the constructive nature of a free democratic society.

Re Bulet 4/16/59 and Albuquerque letter of 4/27/59.

As the Bureau knows, Inspector SULLIVAN delivered the two briefings referred to above. This is to set out the attitude of individuals who attended these meetings.

General DANIEL E. HOOKS, Commander, Air Missile Development Center, Holloman Air Force Base, who attended the briefing on 7/21/59, informed me that Inspector SULLIVAN's briefing was the most thorough and interesting it had ever been his pleasure to hear. He felt that all military people engaged in working with atomic energy should have the benefit of it. Colonel JAMES A. MCKERLEY, Base Commander, Air Force Missile Development Center, Holloman Air Force Base, who made the request for this briefing, has informed us that the briefing was the best received of any briefing which has been conducted at that base. He said those in attendance (all being cleared for secret or better) were very much in need of such a briefing to be aware of just what the United States is facing in the Communist and Espionage fields. 805-82-382

General HOOKS specifically requested that his sincere appreciation be expressed to the Director in making Inspector SULLIVAN available for the briefing referred to in the above paragraph.

On 7/22/59 Inspector SULLIVAN delivered his top secret briefing to the Colloquium at Sandia Corporation, Sandia Base. The group included virtually all of the persons cleared for top secret information at the Sandia Corporation. Mr. [redacted] president of Sandia Corporation and an eminent scientist, informed me that Inspector SULLIVAN's briefing is one of the most interesting he has ever attended. He felt this is the type of thing

that all scientists should have. He said that in the main, scientists are so interested in their work that they pay less attention to the problem of Communism and Espionage than they probably should. It is noted that [] is an SAC contact.

Mr. [] Chairman of the Research Colloquium of Sandia Corporation, described Inspector SULLIVAN's presentation as "most interesting and stimulating".

Just before Inspector SULLIVAN's briefing at the Colloquium at Sandia Corporation, he met with Major General LOUIS T. HEATH, Commander, Field Command, Defense Atomic Support Agency, Rear Admiral COURNEY SHANDS, Deputy Commander, Defense Atomic Support Agency and their aides. This meeting, which lasted approximately forty minutes, was for the purpose of answering any questions which General HEATH or his staff might have concerning security, communism and espionage in the United States. Both General HEATH and Rear Admiral SHANDS were most commendatory concerning the briefing.

Inspector W. C. SULLIVAN's presentations considerably enhanced our prestige in the state of New Mexico and in the circles working with nuclear fission in the military field. Second only to your public addresses, these briefings do as much as anything to bring the menace of communism and espionage to thinking people of the United States.

Dear Mr. Hoover:

I have just finished attending the National Strategy Seminar at the National War College.

The speaker whom I thought gave the most balanced, thorough and thoughtful talk was Mr. William C. Sullivan of your Bureau. Throughout his talk, he demonstrated the highest regard for law and the rights of the individual while discussing the general threat of Communism.

Not only did his talk appeal tremendously to me, but to the whole Seminar of more than two hundred officers. In fact, his reception was so overwhelming that he was the only speaker for whom the succeeding individual discussion group period was cancelled in order that we could remain to ask him still more questions.

You are in every way to be complimented in being represented by an individual such as Mr. Sullivan. A talk such as his made us all realize the common sense and regard for law and human rights which guide him and your Bureau.

I hope you will not consider me presumptuous in writing this letter, but I would be remiss if I did not.

Yours sincerely, 17 1959

Dear Mr. Hoover:

Your representative, Inspector William C. Sullivan, made such an impressive and enlightening address to the National Strategy Seminar that I felt you should be aware of the enthusiastic applause that he received from his audience.

Many of the students came to me to congratulate us on having such a brilliant speaker on the important subject, "The Psycho-Political Front". It is a pleasure to send you this information with the suggestion that it be included in Inspector Sullivan's record.

NOTE: Inspector Sullivan addressed the National War College at Fort McNair (National Strategy Seminar) on 7-17-59. In 1947, Richard Bolling was President of the Independent Voters League and later became active in the Americans For Democratic Action and was National Vice Chairman of the American Veterans Committee in 1947 before being elected to Congress in 1948. Photostats of affidavits indicate that Congressman was allegedly endorsed by the Kansas City Communist Party members in 1945 or 1946, and that Bolling had high level CP connections in New York City prior to going to Kansas City. It was alleged that Bolling was sent to Kansas City by the CP with the intention of his becoming a member of Congress. Dear Mr. Hoover:

This morning as a participant at the National Strategy Seminar at the War College, I had an opportunity to hear Inspector William C. Sullivan's presentation on "Communist Psychological and Political Activities in the United States". His presentation and handling of questions was enormously impressive, effective and balanced.

I am not much given to writing letters of this sort, but Inspector Sullivan's performance was so superior in handling this difficult question that I felt I must let you know of my pleasure in witnessing it.

With best wishes,

Sincerely,
